Metrology-Driven Pipette Calibration[™]

Introducing GMP Select Products and Services from TTE Laboratories

TTE Laboratories brings an unbiased independent focus upon your entire laboratory liquid handling system. We'll protect your lab against all sources of silent and repetitive waste associated with pipettes, tips, pipette users, and calibration service providers. Merely servicing your pipettes controls only a fraction of your costs. Silent pipette errors, inefficiencies, and other problems result in expensive repeated delays and quality violations. We've leveraged the decades of our experience to dig deeper, and provide sustainable solutions for your laboratory.

We're more than a pipette calibration company.

Calibration

TTE is trusted by the most demanding regulated laboratories.

- ISO/IEC17025(2005) & ANSI/NCSL Z540-1-1994 Accredited
- Compliant to USP41, ISO8655:2002 Pipette Calibration Procedures
- 25 years experience servicing the most demanding laboratories in the United States
- Current Service Capacity for 350 pipettes per day, and 700 over the weekends
- Next-Day Service Time: the shortest turnaround in the industry
- Complete repair lab, stocking all OEM replacement parts for all makes and models
- Offering a complete audit ready CFR 21 Part 11 pipette asset management program
- Real time cloud based access to all certs, histories, orders, schedules, and asset reports
- Pricing, certificates, and service levels meeting every laboratory requirement
- Immediate and Responsive Customer Service

Products

Leveraging 25 years of liquid handling experience, we design, recommend, implement high quality liquid handling products and services helping you control your expenses, and produce repeated dependable results.

THE EONS PIPETTE: Buy it once, we warranty it forever. Proven to be the premium pipette with the lowest residual cost. See details here

BEST PIPETTE TIPS FROM THE EXPERTS

We'll recommend the best quality, most cost effective pipette tips for all your instruments from various manufacturers. We'll stock them for next day delivery, and certify their compatibility and performance in our lab.

CUSTOMER SERVICE

We'll also provide continual guidance and reviews, based on our unbiased experience in the lab, on the best liquid handling tools and benchtop equipment you can rely on. Buy quality products at the best prices.

ADDITIONAL 10% OFF TOP BRANDS at [Pipettes.com](https://www.pipettes.com) (Eppendorf, Sartorius, Drummond, Brandtech, Corning/Labnet, etc)

All contracted pipette calibration customers receive a blanket discount on every product we sell at [Pipettes.com](https://www.pipettes.com)

Training

Get everyone on the same page with
[TTE's Pipetting Best Practices Training Sessions](#)

According to independent research, the greatest source of liquid handling inaccuracies are the users in your lab. In fact, even among seasoned laboratory professionals, 70% of all error is user error, and is often ignored or trivialized.

TTE's training sessions deliver significant savings to your lab. See how much you can save:

Testimonials

Kimberly L.

Great customer service. I have worked with a number of pipette calibration/repair companies and TTE is the best by far! They work with you in developing your program and help streamline where they can. Our program has gone from scattered and random to organized with little effort on my end. I recommend them to anyone seeking a great vendor relationship!

D'Ann C.

I've been using TTE for over 20 years for pipette calibration and repair. They are prompt, courteous and very willing to accommodate our schedule. I can always count on them to do excellent work and to use genuine parts for our pipettes.

Ben H.

Excellent turnaround time on pipette calibration and very competitive prices on both services and lab consumables.
