

COME EXPERIENCE TEK-MATIC'S **DISCOVERY ISLAND**

Booth #949

- Pico, nano, and microliter dispensing
- Single cell printing
- Droplet auto-calibration
- **flexlab**
- Microarray printing
- Live cell dispensing
- **Indigo** (all-in-one synthetic reactor)
- Compound & sample management
- Non-contact dispensing

- 1 to 70 nL droplets
- Droplet frequencies up to 120 hz
- CVs of less than 3%
- 96, 384, and 1536 plate filling
- Dead volumes of 4 uL

- Protein crystallography
- Serial dilution
- Cell based assays
- Reagent addition
- NGS
- And more!

- Live single cell printing
- Zero cross contamination
- Documented proof of clonality
- Gentle dispensing for high viability rates
- Cell line development, single cell genomics, and more
