

Premium Magnetic Isolation Products

Permagen's products begin where most products leave off. We strive to put the highest quality product on the market, while improving performance. All of our products use super strong NdFeB magnets for rapid bead capture from any magnetic bead chemistry.

- 
- 96- Well magnet plates to service a wide range of microplates from low elution PCR plates up to 2 mL deep well plates. Available in various magnet strengths depending on our needs. All SBS compatible for robotic use.
 - 384- Well magnet plate for use with high density 384-well microplates. SBS footprint for use in automated liquid handler robots.
 - 24- Well magnet plate for use with up to 10 mL, 24-well microplates. Standard SBS footprint and optimized for liquid handler robots.
 - Centrifuge tube magnetic separations in various combinations for 15 and 50 mL tubes.
 - Several options for PCR strips including our 0.2 mL PCR Strip Magnetic Separation rack designed specifically for 8 or 12 tube PCR strips. Also works equally well with individual PCR tubes.
 - Microfuge tube separators for 1.5- 2.0 mL tubes. Available in 6, 12, or 24 tube configurations.
 - Combination rack for Microfuge Tubes, Storage tubes, and PCR Strips all in one rack (cat. no. MSR1224)
 - 24-Tube Chiller Block for 1.5- 2.0 mL Microfuge tubes.
