PRODUCT CATALOGUE 2016

CEO Message

Clover is a specialized water dispenser and coffee brewer manufacturer & exporter based in Korea. With extensive know-how and experiences accumulated since foundation in 1988, we offer more reliable, durable and competitive products into the world market. Exporting to over 40 countries, we have been enjoying highly good reputation in quality product and services. Recent addition of 3 types of coffee equipments receives very favorable reputation from the market.

Over the years, Clover has become a daily life for millions of people all over the world. We have made their lives convenient, made it less energy-intensive, light-weighted and less harmful to environment. At Clover, every idea ignites the next momentum to make progress for the good of human-nature and the earth.

Quality in Product, Sincerity in Service and Growth with partners are our non-negotiable priorities that we hold on to. Therefore, doing business with Clover will be a good stepping stone for your stable and profitable business. Clover will be your nearest and most supportive partner for your success.

Business Philosophy

At Clover, we follow these commitments : to foster our talent to create our products and services superior, and to pass on our next generation cleaner environment and creative technologies values.

Value

Good citizenship :

With good attitude and sincerity in mind as well as hard working spirit for their own achievement and for the good of their family, we possess the good citizenship to serve as a model to others.

Solicitude :

To create collaborative achievement with colleague, to listen attentively to customer's voice and to grow with our supportive partners, we have considerate mind to others and act based on it.

Change :

In fast-changed economy in these days, change and innovation are crucial for the business success. By way of having this mind-set, we convert these turbulence from external threats to our opportunities.

Principles

We are socially responsible

We observe laws and ethics

We care about environment, safety and health

I SELF SANITIZING TECHNOLOGY(B24A)

Hygiene

- Self-sanitizing : High quality water pump circulates hot water from hot tank through water path to sanitize cold water tank and water contact parts
It can kill the bacteria and germs in the water and protect users from the harmful organism
- User can set up the sanitizing time and period(EX : once a day, once a week, once a month)

Safety

- Child lock mode for both cold and hot water
- Solenoid valve can efficiently control water flow with reduced risk of leakage
- User can easily dispense hot and cold water with one touch button

Eco-Friendly

- Both eco-mode and sleep mode can save energy consumption
 - In Sleep mode : it reduces energy consumption when it's dark (night time)
 - In Eco mode, it reduces energy consumption all the time

I DIRECT CHILL WATER TECHNOLOGY(P15A)

Hygiene

- CFDD(Cooling First Direct Dispensing) :
Cooled carbon filtration system purifies cold water right before dispensing. (US,EU,JP,KR Patented)
- Airless cold tank and hot tank reduce air-borne contamination
- Removable single faucet allows easy cleaning and superior hygiene

Safety & Convenience

- Hot water child lock
- User can easily dispense hot and cold water with one touch button
- Auto dispensing mode with one touch button(150cc and continuously)
- Main solenoid valve system reduces leakage points by being located at the beginning of the filtration system

Eco-Friendly

- Both eco-mode and sleep mode can save energy consumption
 - In Sleep mode : it reduces energy consumption when it's dark (night time)
 - In Eco mode, it reduces energy consumption all the time

Accessories

Innovative water performance

Cup Dispenser

- Suitable for home and office use
- Easy cup refill
- Dissected main body saves volume for carry
- Various cups available
- Easy installation and removal onto water cooler
- Dimensions : 3.3"(84mm) 13.8"(350mm)
- Rim diameter(flat) : 2.5"(65mm) 3"(76.2mm)
- Material : polypropylene, stainless steel.
- Color : light gray

POU Conversion Kit

- 1. SAFETY**
Dual protection float system minimize the risk of overflow of incoming water into the water tank.
- 2. HYGIENE**
Air Filter protects the integrity of the water from air-borne contaminants.
- 3. ECONOMY**
Reduce your cost by converting an existing bottled water cooler or brewer into plumbed in products

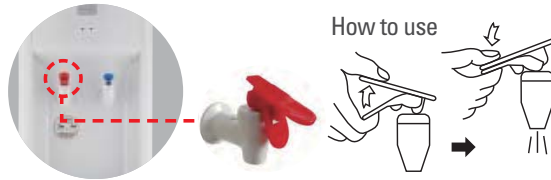

Applicable models : B7, B10, B14, B17, B19, SB19, T1B

Hot Water Safety Faucet (S Type)

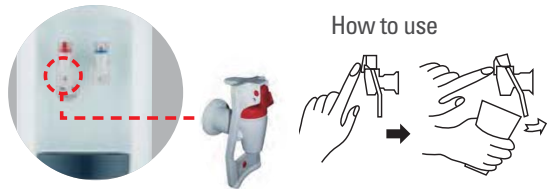

- A two-step action self-closing design
- Design for user's convenience and safety
- Patented
- Optional

- * How to operate safety
1. Hold the two red levers
 2. Press together and push gently downward

Hot Water Safety Faucet (C Type)

- * How to operate safety
1. Push the upper small red button with one hand.
 2. Push the lower lever using a cup with the other hand.

Float baffle

Float baffle can perfectly prevent our bottled water coolers from leakage even when the water bottle has crack or pin hole. It can be replaced easily with normal baffle.
