

Company Overview

Over the past three decades, HighJump has built a diverse platform of warehousing, transportation and retail execution solutions to **take your supply chain into the future**. We're melding our proven solutions with innovative technologies from around our company, as well as our worldwide family of logistics systems companies and partners, to provide you with a **global supply chain network** that meets your needs, no matter how complex. At HighJump, we meet you wherever you are.

WHY HIGHJUMP?

At HighJump, **we love making you better**. Your success drives us to build, maintain and improve tomorrow's supply chain. And as our industry changes at the speed of "now" to meet increasing consumer demands, we **empower you to own your success** from the moment you reach out. We understand your concerns, seek creative solutions and bring them to market. Your customers expect a superior experience. HighJump makes it possible.

COMPLETE END-TO-END SUPPLY CHAIN SOLUTIONS

At HighJump, we deliver a deep technology stack and consolidated platform to meet all your business needs – whether on-premise or in the cloud. From inventory flow and supplier information to manufacturing and distribution solutions, HighJump's innovations provide a **one-stop shop of solutions** that **integrate with other systems** to support a **user-friendly interface**. With implicit integration as our promise, we provide insightful analytics to make data not just an additional asset in your decision-making process, but a foundation.

AWARD WINNING SOLUTIONS

At HighJump, our legacy speaks for itself. Our 30+ years of experience, plus a proven record of innovation and success, position us as a leader in supply chain solutions. We understand our customers' businesses and provide customized solutions to meet individual needs. With our extensive knowledge of the supply chain of the past and the present, we have the experience, network and drive to lead your company into the supply chain of the future. Our ongoing recognition exemplifies this.

SDCE Pros to Know

Today's consumer has ever-higher expectations for purchasing convenience, delivery speed, choice and adaptability. More options for consumers spell greater complexity for the supply chain. It's no longer enough to fulfill demand – you must anticipate it, predict it and make smarter, faster decisions.

At HighJump, we're integrating our proven solutions for the warehouse, transportation and logistics ecosystem with emerging technologies – from around our company and around the world – to build the supply chain of the future. Leveraging advanced cloud technology, we can help you ride the wave of data to achieve greater efficiency, uncover actionable insights and stay ahead of the curve.

HighJump: supply chain of the future.
