JET GLOBAL

Jet Reports

Get all the financial and operational reports you need from Dynamics NAV, GP, and Business Central in the format that works for you.
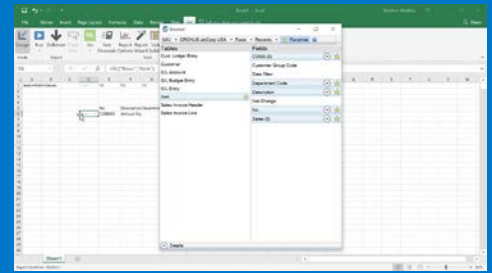

Eliminate errors: Access and pull all your data directly in Excel.

Cut reporting time and cost: No more hard-coding or programming.

Have the answers you need: Drill down on the numbers and access them from anywhere.
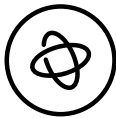

Get started immediately: Installs in minutes and ready to use day one.

BUILT FOR: MICROSOFT DYNAMICS NAV, GP, AND 365 BUSINESS CENTRAL.

"We complete reporting in about a quarter of the time with Jet Reports"

– Mike Ball, JR Simplot

Atlas

Real-time data from any module in Dynamics AX and 365 for Finance and Operations directly in Excel and Power BI for reporting and uploading.
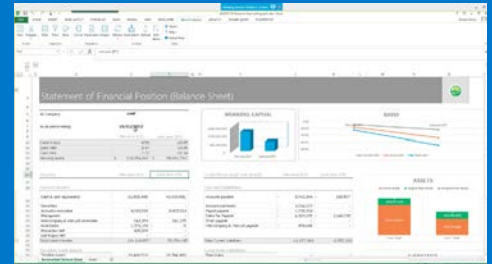

Remove mistakes: Live reports directly in Excel eliminate copying, pasting, and manually re-keying data.

Boost data analysis: Access drill down features.

Gain insight: Present data through a variety of dashboards and visualization canvasses with no more hard-coding or programming.

Save time: Import updated journals, timesheets, budgets, forecasts and more into your database.

BUILT FOR: MICROSOFT DYNAMICS AX AND 365 FOR FINANCE AND OPERATIONS.

"Atlas enables us to access our Dynamics database in both directions. We use it a lot for data improvement/uploading as well as reporting. Atlas has worked virtually flawlessly since we installed it."

- Steve Dickson, Albi Imports

Jet Analytics

Bring all of your data together in one place to enable everyone in the organization to quickly and easily perform sophisticated business analysis in Excel or Power BI.

Designed for users: Removes any need to understand the underlying data structure to design reports or dashboards in Excel and Power BI.

Accurate data you can rely on: Governed data from any Microsoft Dynamics ERP and all your other data sources.

Rapid time-to-value: Turnkey installation in hours with pre-built cubes, a data warehouse, and dashboards.

BUILT FOR: MICROSOFT DYNAMICS AX, NAV, GP, 365 BUSINESS CENTRAL, AND 365 FOR FINANCE AND OPERATIONS.

"I have saved 75 percent of my time that was previously spent on reporting, analysis, and reconciliations."

– George Mbugua, Davis & Shirtliff

Jet Budgets

Control, accelerate, and simplify the fiscal planning process to save time and easily build accurate budgets.

Cut the budget timeline in half: Scheduled, automated workflows that are easy to set up and built to integrate with Dynamics instantly.
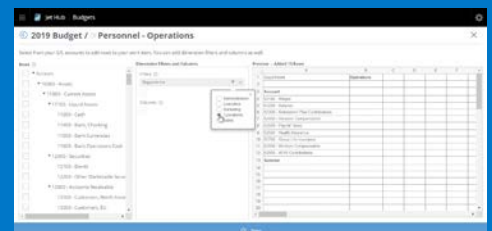

Control the budgeting process: Get accurate numbers the first time through managed and governed spreadsheets.

Immediate value: Intuitive, Excel integrated solution.

Increase productivity: Fast, accurate budget numbers.

Reduce friction: All the functionality you need, nothing you don't.

BUILT FOR: MICROSOFT DYNAMICS NAV, GP, AND 365 BUSINESS CENTRAL.

"Budgeting templates which used to take two weeks to create now take a few hours."

– George Mbugua, Davis & Shirtliff
