Integrity
Data®

"Being new to this ACA process was killing me. Whenever I had questions or problems, I knew I could email and get my problems resolved quickly. Thanks for being so patient with me. The Integrity Cloud Connector for Microsoft Dynamics GP works great and freed up so much time for me."

— *Jennifer O'Donnell, Payroll Clerk,*
Refugio County Memorial Hospital

"We implemented Microsoft Dynamics® GP HR and Payroll across our seven entities. Included with the implementation were three Integrity Data add-on products; Employee E-Mail Suite, Negative Payroll Transactions, and Comprehensive Leave Manager. These Integrity Data products have helped us implement processes not handled by the core GP Payroll functionality, eliminating time-consuming and costly manual processes required to meet our needs. Along with the functionality of the products, we appreciate the services of Integrity Data in assisting with our implementation and set up."

— *Cary Ripplinger,*
Deseret Management

"As a health services provider with several thousand employees, I don't know how we would be managing through this process without the ACA Compliance Solution."

— *Curtis Fletcher, CFO*
Professional Case Management

ACA Compliance

ACA Compliance Solution

Make IRS compliance for healthcare reporting a non-issue by tracking eligibility and affordability. Automatically generate, print and e-file IRS forms 1095-C and 1094-C.

Benefits Management

Comprehensive Leave Manager

Gain flexibility to create and manage unlimited types of leave (mandatory sick leave, comp time, intermittent FMLA...) with varying rules, while automatically tracking detailed leave history.

Enhanced Retirement Plans

Automate and enforce employer tiered matches and contribution limits (imposed by law or company policy) in retirement programs – even across multiple plans.

Life Insurance Tax Calculator

Automatically calculate changes to an employee's term life insurance tax when they experience a salary or age change.

Payroll Productivity

Employee E-Mail Suite
Automatically and securely email direct deposit statements, W-2's, and any other employee communication in just 3 clicks.

Paycheck "What If" and Gross-up Calculations
Perform hypothetical net pay or gross-up calculations in seconds rather than taking the time and risk of changing data to run a mock payroll.
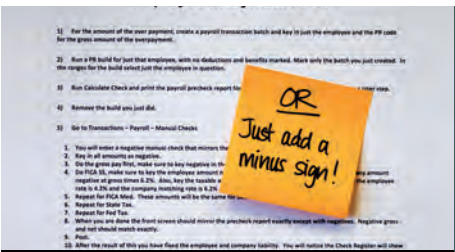

Payroll Accounting

Employee Accounts and Splits
Easily manage complex payroll posting requirements – such as splitting costs and expense distributions across multiple cost centers.
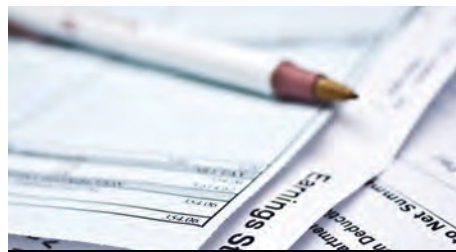

Payroll Processing

Negative Payroll Transactions
Make payroll corrections and adjustments in just one step by entering a negative transaction rather than using time-intensive manual check transactions.
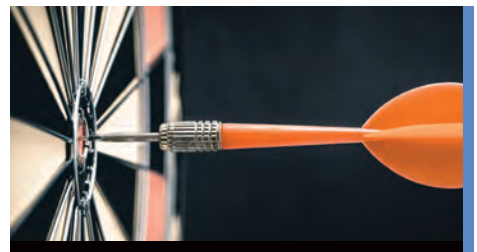

Negative Deductions
Easily refund over-withheld deductions, such as health insurance or life insurance premiums.

Tailor-made Solutions

Tailored Solutions
From customizing your solution to expanding your knowledge – engage with our experts! • Local and state tax calculations • FICA tax calculations • Leave management calculations • IRS reporting • AND MORE
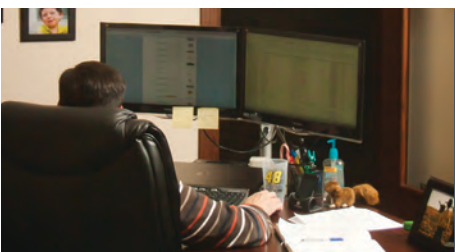

Overtime Hours Rules
Set and enforce overtime rules and limits through configuration of daily, weekly, or by pay period overtime rules.

Mid Pay Period Rate Changes
Manage and accurately apply pay rate changes that take effect in the middle of a pay period.

Financial Wellness

Financial Wellness
Reduce your employee's financial stress with holistic financial wellness offerings that will increase employee engagement and reduce turnover.

Millions of employees benefit every day from Integrity Data Payroll and HR solutions

Top-notch Support and Customer Care

"The Support Team at Integrity Data were so wonderful! They were amazingly patient, went above-and-beyond to answer our questions and resolved issues. Thank you for providing step by step instructions, videos and webinars."

— *Lien Dang, Accountant, Lancaster NeuroScience & Spine Associates*

Expert Services

"We were so happy with Integrity Data's team. They created a customization for us around termination records. With about 2300 employees, we have around 50 terminations per payroll period and had to wait until payroll was actually processed to be able to terminate the employee in Microsoft Dynamics® GP. Now this happens automatically – making our life a lot easier."

— *Don Imler, HR Administrator, Hoss's Family Steak & Sea House*

"During this ACA compliance adventure, there have been many challenging moments, but the Integrity Team has been there at every turn. While I am still not a fan of the healthcare reform initiative, I am a fan of Integrity Data!"

— *Kathleen Kripp, Senior HR Manager,*
   Waubonsee Community College

PAYROLL NOW by Integrity Data

Payroll NOW by Integrity Data℠ is the fully integrated, complete and trusted US Payroll solution for Microsoft Dynamics® 365 Business Central.

Payroll NOW by Integrity Data delivers all the capabilities and efficiencies you expect in a payroll solution and more. Easy to configure with setup wizards and employee groups, it manages your organization's entire payroll process and integrates seamlessly with other vital components in Dynamics 365 Business Central.

This comprehensive app includes:

- Complete Payroll Processing
- Employee Self-Service
- HR Onboarding
- ACA Compliance Reporting and E-Filing
- Federal and State Tax Filing

"It is always a pleasure to work with the team at Integrity Data."

Trusted

Integrity Data has been providing payroll software and services for more than 20 years to employers worldwide. Our experienced team has authored, supported and implemented many payroll solutions for the Microsoft Dynamics product family. We understand the unique requirements of payroll and continue to make your people our priority.

Convenient

An integrated, embedded app for Microsoft Dynamics 365 Business Central:

- Easy installation from AppSource
- Seamlessly integrates with other vital components in Dynamics 365 Business Central: cash and bank management, vendors, accounts payable, project and General Ledger
- Access real-time data and instantly share or extract data from Dynamics 365 Business Central

Easy to use:

- Access all of your payroll functions and tasks in one application, on one platform
- Clean and simple user interface
- Manage all employee related data in one, secure place
- Employee Setup Wizard

Complete

Includes all the payroll functionality your company needs to do payroll today, with more features on the way. We've thought through all the scenarios a business will encounter so that our integrated app will continue to serve you even as your business changes and grows. Please turn over for a list of features.
