Portals are the Gateway to Improved Customer Engagement, don't miss out on pleasing your customers.

How can a portal help your business:

- Save Money by automating internal processes and reducing workload
- Reduce manual processes and staff resources
- Increase accuracy of your CRM data
- Provide a professional customer engagement with automated processes

Things to Ask when considering your Portal Options

Investigating any technology solution for your business can be overwhelming. How do you know if you are asking the right questions and getting the best solution available?

We have compiled a comprehensive list of questions for you to ask yourself and your potential vendors when considering a Portal Solution for your business.

Visit our CRM User Resources page www.crmportalconnector.com/CRMUsers.

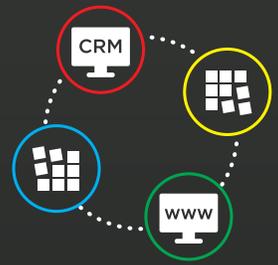

Portal Solutions that Deliver Value to your business and your Customers

A private, **non-profit health care** organization in **Altanta** is using The Portal Connector for:

- Customer Support
- Project Management
- eCommerce

With the following results:

- Increased level of support with online, self-service options for their customers.
- Improved customer satisfaction, customers order publications online with Ecommerce solution
- Increased operational efficiency with online customer orders, reduces phone orders
- Increased team collaboration online: publication management process with workflows and security that guide the review, edit and finalization process.

Your portal—today and tomorrow

Looking for Portal website hosting? Your portal can be hosted in any environment, your servers, Azure, AWS, GoDaddy, you name it. If it has Windows Server and IIS you are good to go. Now that is flexibility and choice.

Is a Free Portal really Free, and will Free really meet your Business Needs?
