

GP 2365

Dynamics GP to Dynamics 365 Business Central Upgrades

ADVANCED BUSINESS SYSTEMS

- ⇒ GP 2365 is the key to easy and stress free migrations from Dynamics GP to Dynamics 365 Business Central.
- ⇒ GP 2365 is a combination of software tools, extensions and Business Central implementation know how.
- ⇒ ABS is the leader for Business Central implementations starting with the first successful go live in the world.

Unique Approach

ABS builds on the existing Microsoft conversion tools and fills in the gaps, providing you with a complete migration solution.

Our historical general ledger data conversion tool will map your segmented GP general transactions to Business Central's dimension based account structure. There is no limit on the number of years of history you can convert.

Must Have Extensions

Extensions developed by ABS help you to keep the functionality you depend on in GP. These extensions are FREE to ABS clients and include:

- MICR check layouts
- Electronic check signatures
- Statistical General Ledger accounts
- Purchase quote approval workflows

ISV Solutions

Not all GP ISVs have Business Central equivalents. We can help you navigate the Business Central ISV community. We have experience with inhouse payroll, EDI ,shipping, bar code scanning, eCommerce, integration tools and much more.

Why GP 2365?

There are two Microsoft conversion options that both come with limitations:

1. Requires GP 2015R2 or later and does not convert historical data.
2. Requires GP 2018R2 and strips out account segments from your historical data.

GP 2365 supports all the way back to GP 10 and provides historical data conversion that retains your chart of account segmented information.

ADVANCED BUSINESS SYSTEMS

ABOUT ABS

Founded in 1999, ABS is the leading US based provider of Microsoft Dynamics 365 Business Central implementation and support services.

ABS has over 30 staff spread across four time zones and five office locations:

- ◇ Austin
- ◇ Dallas
- ◇ Houston
- ◇ Nashville
- ◇ New Orleans

CORE VALUES

ABS lives by a set of core values. They guide and shape everything that we do. We also look for these characteristics in our clients.

- ◇ Do The Right Thing
- ◇ Learning
- ◇ Gratitude
- ◇ Discipline

Boutique Service, Nationwide Coverage, Global Capabilities

- ⇒ ABS will provide you with a boutique level of attentiveness and care from seasoned professionals residing in one of the four US time zones.
- ⇒ For our global customers we have a network of professionals worldwide so that we can arrange for service needed anywhere on the planet.

Business Central/NAV From Day One

- ⇒ We can open the hood and know what we are doing. Our Business Central/NAV experience goes back twenty years. We won't waste your time or money learning what needs to be done.
- ⇒ We had the first successful Business Central go live in the world.

Implementation Options

- ⇒ Fixed fee, quick start packages for start ups and smaller organizations.
- ⇒ Professionally managed agile implementations for larger organizations.
- ⇒ Three point estimating process ensures project budgets are realistic and obtainable.

Support Plans That Work

- ⇒ Customers vary in support requirements. Some are pretty self sufficient while some need 24x7 access to experts to ensure mission critical systems have minimal downtime. ABS has a wide variety of support plans designed to meet a wide variety of needs.

One Stop Microsoft Shop

- ⇒ ABS offers more than just Dynamics Business Central and NAV. We can help you with your Office 365, PowerBI, Azure hosting, PowerApps and Flow requirements and provide you with one monthly invoice for ALL of your Microsoft subscriptions.

Industry Expertise

- ⇒ Extensive experience in distribution, manufacturing, professional services and retail.
- ⇒ Niche specializations in rental management and oil field services.
