An industry leader in specialty coffee, they offer 40 unique blends of high-quality beans—all available in decaf and roasted to perfection with their patented Right Roast® process. WHITAKER
BROTHERS
SINCE 1945

Whitaker Brothers started out in 1945 selling paper shredders and binder equipment. They have since risen to the top of the Data Destruction Equipment industry with clients ranging from the federal government and DOD contractors to commercial businesses. They needed to bring their **web store** and **ERP together**, and couldn't integrate their **Magento** solution with **Microsoft Dynamics™ GP**.

Wireless Giant made their debut selling pagers back in 1996. Today, they provide over 90 retail wireless phone concepts across multiple states, as well as being a national distributor of their product lines. They needed an eCommerce solution that could accommodate both their **B2B** and **B2C sales channels**, all the while being **fully automated** through **integration** with **Microsoft Dynamics™ GP**.
