# Are your paper-based processes "eating" your profits?

MetaViewer Paperless Automation is designed with your budget in mind, robotically capturing information and automating workflow while offering superior functionality and user experience in a tailored and affordable solution.

MetaViewer — designed to keep *your* profits in *your* wallet.

INVOICE ACCELERATOR

Document Capture
- MetaViewer Invoice Accelerator captures documents utilizing state-of-the-art technology, then intelligently reads and extracts all transactional data whether it arrives on paper or electronically, all while eliminating manual data entry.

WORKFLOW

Intelligent Workflow
- MetaViewer's automated workflow facilitates two- and three-way matching and reconciliation with Microsoft Dynamics ERPs, routes documents for approval, standardizes processes, automates GL coding and notifies users about the status of invoices.

Integration

Integration
- Integration is automatic. MetaViewer blends with your existing environment in perfect harmony. MetaViewer is the only paperless solution fully integrated with all Microsoft Dynamics ERP and financial modules (AX, D365O, GP, NAV and SL).

RETRIEVAL

Retrieval
- MetaViewer gives you the information you need, when you need it. Find all appropriate documents within a second or two using a web-based search or directly from your Microsoft Dynamics solution with the click of a button.

We don't stop at AP Automation! MetaViewer easily expands across your enterprise, from AR to HR to Legal and beyond. MetaViewer offers advanced functionality including Journal Entry, Expense Reporting, Requistion, Mobile and more.
