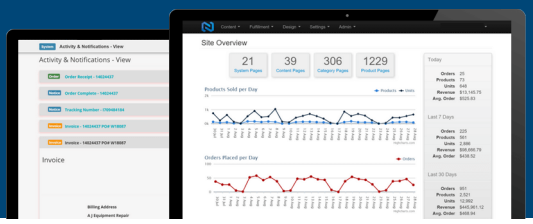
Sniperdyne:
Nomad eCommerce

"We've come a long way with our Nomad website. Customers have been telling us how great the website looks, and how easy it is to use."

- Lydia Andruscavage, Accutome



SNIPERDYNE

Nomad eCommerce

Nomad erpCommerce from Sniperdyne is built for companies that recognize the importance of having their webstore securely connected to their accounting and order processing systems and that have struggled with either building their first webstore or are frustrated with their non-connected eCommerce system.

Nomad erpCommerce seamlessly shares data between eCommerce and virtually any ERP software solution.

Nomad erpCommerce is a complete, mobile-ready webstore capable of business-to-business (trusted partners) or business-to-consumer transactions that are completely integrated with your Microsoft Dynamics 365 Business Central, Microsoft Dynamics NAV, SYSPRO, Macola, and most other back-office systems.

"Nomad really does a lot more work for us than a simple eCommerce system. We've put Nomad to the test on a completely different level than most other vendors."

- Jarrod Eudy, Product Support Specialist at Go To Parts

The Advantages of Nomad erpCommerce

Built-in integration between ERP and eCommerce means improved customer experience and less cost to you.

"Web orders are easier to process because we no longer have to re-key information into the ERP system."

- Leanne Williams, Corporate Secretary

Information is shared seamlessly between your ERP and eCommerce site

- Information is continuously shared and integrated with your ERP through APIs and ERP maps

Information updated in your ERP is reflected in your eCommerce site in near real-time

- Pricing changes
- Customer information updates
- Customer discounts

Customers can view all valuable information in your eCommerce site

- Order status
- Item availability
- Shipping status
- Discount information
- Payment status

Fewer resources and less administration required for you

- No need for customer service phone calls – all information is at your customers' fingertips
- No costly custom third-party integrations
- No manual re-keying of information into your ERP system

Integration with virtually ANY ERP

- Updates or additions to your ERP processes and functionality are reflected in Nomad, including third-party customizations
- Integrates with all versions of Microsoft Dynamics 365 Business Central, Microsoft Dynamics NAV, SYSPRO, Macola, and more. (Don't see your ERP listed? Contact us.)

Easy to design and administer

- Web development experience not required
- Employees can administer Nomad site alongside other job responsibilities
- Easy-to-perform product updates, image addition and modification, and layout customization
