

Multi-Batch Management

Multi-Batch Management (MMM) releases you from the time consuming process of individually creating, printing and posting payable batches. Let MMM handle all that repetitive clicking and company switching and save 75% or more off the time you currently spend on these tasks.

- Save rules for creating payment batches
- Batches are created automatically across companies with complete accuracy
- See all payment batches (EFT and checks) within one screen

• IT'S SIMPLE •

The easiest way to create **payment batches**, print checks, generate **EFTs** and **SafePay files** from multiple checkbooks and across companies.
