

# Ask yourself about Bank Reconciliations in Dynamics GP...

- ✓ Does someone at your company **spend more than half-a-day** per month on reconciling, matching and recording bank transactions? Come by booth #359 to see how to take manual work and automate it straight from the import.
- ✓ Does your company deal with a **high volume of bank transactions**? We can show you how to import thousands of transactions in just minutes.
- ✓ Is there a need for **daily or weekly cash matching**? From imports to matching, come see how to make month-end less stressful.
- ✓ Does your company have a **complex bank reconciliation process** due to multiple bank accounts and/or locations, or a need to match credit card wire types and locations? Come talk with us about the complexities you deal with, we have options.
- ✓ Does your company have **variance mysteries** between the Dynamics GL and GP Bank Rec Modules? Our Reconciliation Summary screen demystifies differences quickly.
- ✓ Would **automation** of incoming bank transactions save time? We offer automation that starts with the import, or can be triggered at the click of a button, or setup to happen automatically overnight.
- ✓ Can your company concurrently view accounting entries right next to the imported bank statement? Our visual representation will WOW you. Come see it.

Over the years, customers have come to us with issues like these and that's why we created **Easy e-Bank Rec™** to help resolve these and other challenges in the bank reconciliation process.
