GP Elementz

Clever apps for Microsoft Dynamics GP

Enhanced Notes

Extends the standard Dynamics GP notes function
Provide users with the ability to retain many notes instead of a single note and a much greater text area. Alert team members of tasks, and have the ability to secure, categorize and audit all content.

CustomerHQ

Real-time access to Dynamics GP data
Provide your customers secure access to their Dynamics GP receivables account data such as invoices, statements and transaction reports – from anywhere, on any device.

Invoice Transformer

Consolidate or 'mirror' SOP invoices
Invoice Transformer provides flexible control over individual item lines on Sales Order Processing invoices only, and enables invoice lines to be transferred and re-assigned to belong to different invoices.

Financial Elementz

Convenient tools for Finance Users
Custom windows, reports and import utilities designed for Finance users. Finanical Elementz seamlessly integrates with Dynamics GP, and provides tools that complement exisiting system offerings.

Distribution Elementz

Extend SOP, POP and inventory functions
This collection of windows and reports can be used in addition to, or in preference to, standard Microsoft Dynamics GP equivalents and have been specifically designed for users in Operations.

Security Informer

A window that notifies users of their security access
A simple to set up tool that provides on screen messaging providing details to users of access rights. Aids auditing of user security and permissions within Dynamics GP.

Apps that help Dynamics GP users work more efficiently

At ISC Software, we have worked with Microsoft Dynamics GP since 1996. In that time we have created clever and smart solutions to help our customers be more productive and efficient. GP Elementz is a select number of these solutions available to Microsoft Dynamics GP users worldwide to complement and enhance their system.

GP Elementz are available to purchase by Microsoft Dynamics GP users and partners worldwide. Our selection of tools include an extension of the notes function, user friendly windows and useful reports.
