# World-Class AP Automation for Microsoft Dynamics 365 and AX

## Invoice management should be automated and rewarding

Dooap is a world-class AP automation solution designed for Dynamics 365 and AX and delivered from the Azure cloud. Dooap offers a state-of-the-art user experience – on mobile and on desktop. By simplifying and automating the AP process, Dooap results in greater efficiency and mobility, fewer errors, and lower purchase-to-payment processing costs. It really does take the pain out of your invoice management.

### Just swipe invoices off your to-do list

The mobile app makes work independent of time and place. Using the software is fun and easy. It increases motivation and fast adoption.

### It's seamless with Dynamics 365 and AX

Dooap requires minimal deployment effort, and uses the familiar Dynamics business logic and standard interfaces. Both implementation and maintenance are a breeze.

### We promise your organization will love it

Automation gives your AP professionals time for exceptions rather than routines. 100% of users say it has the best user interface they've seen.
