	36 Offices	Hosting Certification SPLA		
Industry Experience Metals, Automotive Suppliers, Insurance, Transportation, Public Sector				

Microsoft® Industry Solutions: Dynamics 365 for Finance and Operations

Government

Dynamics AX/365 for Transportation Authorities

Crowe can help airport executives carry out their mission by assisting with solutions to improve capital project oversight, modernize IT systems, and address more stringent regulations.

Dynamics AX/365 for State Lottery Organizations

Crowe helps government organizations implement effective enterprise resource planning (ERP) systems to eliminate manual, duplicative, and disparate processes; facilitate easy and convenient access to consolidated, real-time information for decision-making; improve transparency and stakeholder communication through simplified creation and sharing of financial reports; establish internal controls to support external audits and regulatory requirements; and manage organizational change to support ERP success.

Manufacturing & Distribution

Dynamics AX/365 for the Metals Industry

The Crowe Metals Accelerator enhances Dynamics 365/AX to meet the unique needs of the diverse metals supply chain while also allowing an organization to leverage Microsoft's powerful analytics to enable improved employee decision making.

Dynamics AX/365 for Automotive Suppliers

The Crowe Automotive Accelerator for Dynamics 365/AX targets industry-specific issues such as EDI and release accounting optimization, lean manufacturing, and improved program management to deliver a complete solution for automotive suppliers looking to modernize their enterprise application approach.
