OUR SERVICES

PRIVATE CLOUD

Conquer virtually any performance or security challenge.

Performance. Our fully-managed, fully-secure, fully-reliable and scalable private cloud is trusted by large brands as well as fast-growing companies. Features an all-inclusive 99.99% application uptime and included redundancy and failover.

HYBRID CLOUD

Unite multiple clouds into a single managed solution.

Innovation. Bring your public, private and/or on-prem applications seamlessly together with direct connections between platforms, and enable true innovation for your organization. Features connected in-motion 'always-on' parallel platforms.

PUBLIC CLOUD

Harness the power of Amazon or Azure with expert management.

Stability. Management services that scale up the success and stability of Microsoft Azure and AWS platforms, while bringing down the costs. Provided by deeply trained and certified public cloud technical experts.

CLOUD ADVISORY

Get strategic and technical plans to make cloud initiatives smooth and efficient.

Visionary. Find the right path forward with advisory and planning services from our cloud experts ranging from workload-specific assessments to full data center transformation planning. Provided by veteran cloud and IT experts that can help enable your organization's vision.

MANAGED CLOUD IT

Take the burden and cost out of managing infrastructure with cloud-centric services.

Freeing. Cloud-based desktop, networking, IT services and user support that ease the burden of managing your own infrastructure. Business leaders find the freedom to focus on what they do best.

SOLUTION CLOUDS

Meet specific line-of-business and industry needs.

Specialized. Pre-designed cloud infrastructure, hardware templates and protocols address industry- and business-specific needs including The Concerto Cloud for Healthcare and The Concerto Cloud for Microsoft Dynamics.

WHAT MAKES CONCERTO DIFFERENT?

RELIABILITY

Concerto's platform features a 99.99% application uptime guarantee. Innovative 'Always On' services eliminate downtime for maintenance and code updates with tandem environments.

VALUE

Flat-rate billing, automatically included failover to another data center and managed security offer true value and peace of mind.

REDUCED RISK

Application-level security and compliance protocols, state-of-the-art security and experts watching every facet of your environment reduces your risk of a breach or downtime.

BEST-IN-CLASS

Based on the best technologies in the marketplace, built by pioneer IT leaders and innovative minds, there's only the best for Concerto customers.

PERSONALIZED SUPPORT

Dedicated service delivery managers, monthly check-in calls and a promise to delivering the best personalized support means that you can rely on Concerto.

A SINGLE VENDOR

Concerto offers a wide range of services and experts to help reduce the noise and risk from having multiple cloud service providers.

INNOVATION

First to market with a true hybrid cloud, in-house DevOps expertise and a commitment to continuous improvement means you have a cloud partner who can help you innovate.

BEST-IN-CLASS SECURITY

Despite its importance to daily business operations, more than half of all organizations do not have access to IT security professionals. That changes here.

Concerto takes security further than most cloud providers – applying security to application layers, as well as investing heavily in the people, facilities and tools to combat increasingly frequent DDOs and IDS/IPS attacks.

Leverage Concerto's investment in:

- Veteran engineers, security specialists and data scientists
- Exhaustive training and certifications including CISSP & ITIL
- Industry-leading tools, including Cisco stack for IDS/IPS
- State-of-the-art infrastructure, datacenters and physical security
- Planned, tested and proven security protocols and processes
- Third-party penetration testing and auditing

MONITORING & INSIGHTS

Is your platform working optimally? What's the status of support tickets for your users? Concerto Cloud Services pairs state-of-the-art facilities and technologies to give you the best protection, performance and insight possible.

In addition to our unrivaled, personalized 24-hour support, your organization has full insight into the health of your environments with secure online access to user reports, peak usages, system updates, security monitoring and much more.

Our proactive monitoring and routine testing gives you peace of mind that any issue is stopped in its tracks or has a lightening fast resolution. Your cloud has never run better.

COMPLIANCE MADE EASIER

Our dedicated Governance, Regulatory and Compliance (GRC) team takes the guesswork and effort out of managing compliance.

With Concerto, your application is compliant the second it's hosted in our cloud. Our team of experts:

- Earns the attestations & certifications to ensure compliance
- Understands the complexities and impact of compliance issues
- Helps reduce organizational risk with security best practices
- Provides the proper documentation you need for reporting
