

Innovative Products for

Microsoft Dynamics
GP, AX & NAV

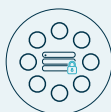

Microsoft Dynamics 365
for Finance and Operations

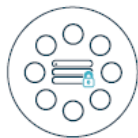

Binary Stream is an award winning, Microsoft Gold certified independent software vendor (ISV) that develops enterprise-grade, add-on software to expand and optimize Microsoft Dynamics GP, Dynamics AX, Dynamics NAV & Dynamics 365 for Finance and Operations.

Over 2000 customers rely on Binary Stream products to solve a range of complex accounting and business challenges including: multiple entity management, complex subscription billing and deferrals, healthcare material management and property lease management.

Enterprise Series

The Enterprise Solution Suite from Binary Stream offers you in-depth end-to-end solutions for wide-ranging organizational requirements and is suitable for both small and large organizations. Products are seamlessly integrated with Microsoft Dynamics GP, AX, NAV & D365, and combined, offer you a complete solution at a lower cost of ownership. Maximize your investment.

Multi-Entity Management

- Consolidate all your financials across multiple Microsoft Dynamics GP entities within one database
- Generate rolled up reports across some or all companies w/out spreadsheets or external reporting systems
- Centralize processing of AP, AR, payroll, SOP, POP, and more to streamline your operations
- Automate intercompany transactions

Subscription Billing

- Automate the invoicing process. Set customers to auto-renew. Enable online self-serve
- Track 1000s of deferral schedules at the line item level and with complete control over the timing of posting to the GL
- Stay compliant with the new revenue recognition standard (ASC 606)
- Bill monthly, yearly or any frequency that suits

Intercompany Bridge

- Reduce errors and save huge amounts of time with automated intercompany postings
- Simplify cash receipt process by applying one customer payment to all invoices, from all databases
- Streamline the process of repeatedly updating multiple records in databases by synchronizing master records

Healthcare Materials Management

- Manage consumption-based supply chain in your healthcare facility
- Ensure accurate and optimal levels of inventory to reduce materials costs
- Leverage mobile handhelds & automated data collection for efficient paperless inventory process

"Binary Stream creates innovative, functional solutions... solutions that move GP forward. Their solutions allow our clients greater flexibility and efficiency with deeper functionality."

- Tony Storer
Summit Group Software

Property Management

- Efficiently manage both landlord-side and tenant-side lease agreements regardless of complexity or volume
- Easily handle month-end rental billing including any number of one-time fees and rent escalations
- Automatically calculate the common area maintenance (CAM) expenses and assign appropriate amounts to tenants

Investment Management

- Quickly determine the performance of your overall portfolio, or a specific investment
- Define your own criteria for grouping investments by sector, market cap, etc.
- Track the unrealized gain/loss on your current equities by importing up-to-date share prices from the internet

Loans Management

- Streamline loan processes to quickly & accurately administer & track your loans, all from within Dynamics GP
- Convert any AR or sales invoice into a customer or employee loan
- Loan calculator to simplify loan entry. Various interest calculations available: simple, compound and the "Rule of 78"
