

ROCKTON'S TWO PART HARMONY

Exclusive GPUG Summit Offer:

**Purchase any two new Rockton
Software products and save
\$60 per GP user, per product.***

proud premier sponsor

*All new product purchases require one full year of Annual Maintenance (AMA) which is calculated at 20% of the product's current list price. Valid through Dec. 31, 2017.

Rockton Software's Microsoft Dynamics GP Products

Are you ready to *work simpler & easier*®?

Extend the power of Microsoft Dynamics GP with tools that will rock your world.

SmartFill

Find information up to 83% faster with Rockton's quick and easy google-style data search tool.

\$120/user
*1st year • 20% AMA

Avoid traditional GP lookups and find data with the google-style search tool that works the way you expect. **SmartFill** helps you reduce data duplication by quickly finding Customer, Vendor, Account, or other records by allowing you to search part of a record's name, ID, or any other related information.

Dynamics GP Toolbox

27 helpful tools in one convenient package? Just when you thought it couldn't get any better.

\$150/user
*1st year • 20% AMA

Dynamics GP Toolbox is a collection of tools our customers have asked for and was created to address pain points in Microsoft Dynamics GP. It was built by combining popular products to arm our customers with more ways to simplify their day-to-day operations. System Administrators, Accountants, and End Users love this product!

Auditor

Changes happen. Now you have a way to track them all.

\$180/user
*1st year • 20% AMA

While fraud prevention is the most common reason **Auditor** provides outstanding value for Microsoft Dynamics GP, the personal and customized fit offers the flexibility of tracking data changes for many reasons: monitors and measures user performance, data integrity, and compliance. This includes your Microsoft Dynamics GP accounting system, at the SQL database level, and any 3rd party products.

Dynamics Report Manager

Rockton has made reporting so fast and easy, you'll want to send us flowers.

\$150/user
*1st year • 20% AMA

Desire more discretion and efficiency when distributing reports? **Dynamics Report Manager (DRM)** gives you full control to launch your existing standard or custom reports from within Microsoft Dynamics GP.

Omni Price

Manage nearly every pricing situation you can think of and a bunch you haven't.

\$210/user
*1st year • 20% AMA

Omni Price enhances your GP pricing using layered and configurable price sheets and advanced filter-based selections, which allows pricing to be driven by Customer, Item, Date, and other related fields. It is great for retail, manufacturing, and distribution.

Annual Maintenance Agreement is 20% of current product price and is required for the first year at time of initial purchase. Orders are processed in US Dollars. Pricing effective through December 2017.

27 helpful tools in one convenient package?

Just when you thought it couldn't get any better.

NEW

Dynamics GP Toolbox: List of Tools

Security – tools that make the system more secure

Password Policy Options	Provides password restrictions to both user password and the system password, above and beyond those provided by Microsoft Dynamics GP and Microsoft SQL Server
Inactivity Timeout	Specify a particular time of inactivity when users are gracefully logged out of Microsoft Dynamics GP. Additionally, assign different timeout periods for an individual or a group of users
User Lockout	Lock users out of Microsoft Dynamics GP after they have made three unsuccessful password attempts
Safe Login	Prevent users from doing anything immediately after logging into Microsoft Dynamics GP until all products have completely initialized
Redirect	Assign a different window to open when a user does not have security access to a given window, such as an inquiry window when access is removed from a maintenance window
Security Manager	View, report on, and manage security in a much more intuitive interface than is available with Microsoft Dynamics GP
Security What If?	Ever wonder what the impact will be when you make a security change? Review security changes before making them
Task Builder	This wizard simplifies the creation of new security tasks

Administration – tools that help the System Administrator

Version Pro	Manage 3rd party products across your system by ensuring all servers and workstations have the correct products installed
Login Logging	Track actual logins against the Microsoft Dynamics GP registered user count
System Lockout	Prevent users from logging into a specified company or all companies. Additionally, you can schedule a recurring system lockout process or for a future date and time
User Groups	Create groups of Users or User Classes in order to assign permissions or restrictions for various tools in Dynamics GP Toolbox
Conditional Field Level Security	Add conditional Dexterity scripting to fields allowing simple customization of Microsoft Dynamics GP

Dynamics GP Toolbox ~ List of Tools

Business Processes – tools that improve specific modules

Reason for Hold	Requires the user to enter the reason that they are putting a customer or vendor on hold
DocSync	Retain all or part of a transferred sales document number in the resulting document number
Payment Approval	Provides auditing and tiered approval of payments in Microsoft Dynamics GP
Period Open/ Close	Open, close, and create fiscal periods across all companies and series from one screen
Reset Batches	Reset batches stuck in a failed posting process
Batch Review	One central location to view, edit, post, and generally manage all transactions across major modules (GL, RM, SOP, IV, PM, POP)

27 helpful tools in one convenient package?

Just when you thought it couldn't get any better.

User Experience – tools that make the Microsoft Dynamics GP experience simpler & easier

Mentor	Lookup, open, and see navigation information about any window in Microsoft Dynamics GP
Inspector	Displays detailed technical information about the fields in virtually any window in Microsoft Dynamics GP or any Dexterity-based product
PopUps	Display information (global notes, personal notes, and tips) to the user on virtually any window in Microsoft Dynamics GP
Object PopUps	Automatically open record-level Microsoft Dynamics GP notes when an entity is selected or displayed
Widgets	Simple, yet powerful tools that improve the experience in Microsoft Dynamics GP are available: <ul style="list-style-type: none"> • Close confirmation: A dialog box confirms you wish to close GP, avoid accidentally closing and needing to restart the application • Company in the Title Bar: Adds the company name to the application so you can identify which company instance you want in the Windows task bar • Auto Fill System Password: Enter system password once within a session of Microsoft Dynamics GP
