

NMB PACKING WORKBENCH

STREAMLINE MULTI-CARRIER PARCEL & LTL SHIPPING PROCESSES FOR MICROSOFT DYNAMICS AX/365

FEATURES

Extend the power and utility of Microsoft Dynamics AX/365 into your parcel and LTL carrier operations

WORK SMARTER

Rate shop from a quote or sales order

Manage HAZMAT information from item creation to shipment

Extended shipping and delivery options throughout the AX screens

Consolidated shipping information makes it easier to find and manage shipments

Simplified packing and shipping processes save you time

Process all forms of shipments (sales orders, transfer orders, desktop shipping)

Fast shipment processing

PACK SMARTER

Consolidate shipments for efficiency and costs savings

Overview forms allow for quick and easy management of shipments to process

Box packaging automation simplifies the packing process

Allows for overpacking

Scale integration for more accurate rates and avoiding unnecessary fees

Assign boxes to pallets and pallets to containers with a click of a button

SHIP SMARTER

Rate shop and change carriers from the packing workbench

Track packaging materials through journal entries

Create voucher entries for shipping charges

Modify charges using the advanced markup and markdown features

Setup weight tolerances

Regulatory and compliance fields added (NMFC, LTL class codes, PRO numbers)

Generate documentation based on shipment (shipping label, bill of lading, certificate of origin, commercial invoice)

AES filing integrated with the packing workbench

Multi-Carrier Parcel and LTL Shipping designed for seamless integration with Dynamics AX/365

NMB Solutions works with Dynamics AX partners and clients internationally. Our reputation for excellence is based upon our professionalism, expertise and dedication to client satisfaction. It is our pleasure to assist you in reviewing your Multi-Carrier parcel and LTL integration requirements and demonstrate the benefits of our solution.

- Provide high volume parcel shipping
- Provide more efficient packing and shipping operations, reducing time and costs
- Deliver shipping charge estimates to customers
