

How can I  
*save money*  
on vaccines?

How do I know if I'm  
*properly coding*  
for vaccine  
administration?

Are our vaccine  
payments covering all of  
*our costs?*

How  
*can I afford*  
a new vaccine  
refrigerator?

**Your patients need vaccines  
to manage their health.  
You need to manage the financial  
health of your practice.**

*CPP can simplify the process and provide  
resources, saving you time and money.*
