

Partners in   
**Pediatric Care**  
Program

SERVICE OFFERINGS

## A **one-source** laboratory solution — for you and your patients.

LabCorp, along with Integrated Genetics (a member of LabCorp's Specialty Testing Group), understands the needs of your pediatric practice. Through a dedicated pediatrics program for laboratory services, LabCorp offers a comprehensive test menu to address the growth and developmental needs of newborn children through young adults.

# Patient Education

Education is an important piece of the partnership between you, your patients, and their parents. Understanding this element, LabCorp provides detailed information on a broad spectrum of laboratory testing services. LabCorp is committed to providing educational resources that explain these tests and their applications.

## Patient Education Offerings

LabCorp offers patient-friendly, easy-to-read materials that cover a variety of topics:

### Patient information

Lead poisoning, allergy, asthma, pediatric SNP microarray (chromosome analysis relating to autism spectrum disorder/developmental delay), routine tests. (Many pieces are also available in Spanish.)

### CarePath report options

Patient counseling/clinical decision support reports to help patients understand their diagnosis and treatment options.

### LabCorp Patient portal

The opportunity for your patients/parents to interact directly with the lab via a dedicated patient web portal. Your patients/parents can manage their schedule by making appointments online and paying bills online. They can also view, download, and print their own test results, saving your office staff time with phone calls and manual follow-up procedures.

### Online appointment scheduling for specimen collection

LabCorp values your patients'/parents' time and their experience. Patients/parents may schedule an appointment for specimen collection at one of more than 1700 patient service centers nationwide, many of which offer pediatric collections. Patients may also visit without an appointment.

# Web-based connectivity and systems integration

LabCorp offers electronic connectivity solutions to assist your practice in test ordering and result delivery.

The screenshot displays the 'Global Search' web interface. At the top, there is a search bar with the placeholder '(Last)(Last,First) or (MRN)'. Below this, the 'Global Search' form is titled with a '\* Required' indicator. The form prompts the user to 'Please enter the \* required fields' and includes the following fields: LAST NAME \* (containing 'anyname'), FIRST NAME \* (First three letters) (containing 'dia'), DATE OF BIRTH \* (08 / 15 / 1955), STATE \* (North Carolina), SOCIAL SECURITY NO. (with three empty boxes), and PHONE NUMBER (with three empty boxes). A 'Search' button and a 'Cancel' button are located at the bottom of the form. Below the form, a table displays search results with columns for Patient Name, DOB, Age, Gender, Reported Date Time, and Street. The table contains seven rows of data, all for 'ANYNAME, DIABETES'.

Patient Name	DOB	Age	Gender	Reported Date Time	Street
ANYNAME, DIABETES	08/15/1955	55 Years	M	10/28/2010 19:14	111 ANY STREE
ANYNAME, DIABETES	08/15/1955	55 Years	M	10/28/2010 19:14	111 ANY STREE
ANYNAME, DIABETES	08/15/1955	57 Years	M	05/31/2013 01:00	111 ANY STREE
ANYNAME, DIABETES	08/15/1955	54 Years	M	11/05/2010 13:02	111 ANY STREE
ANYNAME, DIABETES	08/15/1955	54 Years	M	10/28/2010 19:27	111 ANY STREE
ANYNAME, DIABETES	08/15/1955	55 Years	M	10/28/2010 19:14	111 ANY STREE
ANYNAME, DIABETES	08/15/1955	53 Years	M	11/05/2010 13:02	111 ANY STREE

## Connectivity Solutions

### LabCorp Link®

Web-based test ordering and result delivery, mobile result delivery at your fingertips

### Systems integration

Interfaces with more than 700 systems to connect LabCorp with your electronic medical records (EMR)

## Access to Referred Patients' Test Results through LabCorp Link

Global patient search is a feature of LabCorp Link that allows an authorized physician to access lab results ordered by other physicians for a referred patient.

### Global Patient Search\* allows you to:

- Search for a referred patient's lab test based on various search parameters
- Review results of the referred patient, gaining a more complete clinical picture of the patient's health
- Minimize the time you and your staff spend requesting copies of patients' lab results

\*For global patient search feature, a physician must have a LabCorp Beacon account, and the physician must agree to the Global Search Terms of Use. Global search is only permitted when the physician is in a treatment relationship with the patient.

# Count on LabCorp as your single-source solution

You can count on LabCorp for integrated services. From pathologists, scientists, customer service, information technology, specimen collection and transport teams, to quality testing, we combine all-in-one.

## LabCorp is easy to use

- LabCorp participates in an extensive network of managed care plans.
- Patient service centers are available for pediatric specimen collection.
- Courier services are available for in-office specimen pickup.
- Specialty customer service representatives assist with test inquiries, add-on testing, or other account service needs.
- Pediatric-specific options with a focus on minimum samples, alternative samples, and age-specific reference ranges.

## Be a part of LabCorp's Partners in Pediatric Care Program

If you are interested in participating in this comprehensive program, please complete the following information and return it to LabCorp. Or, you may give this card to your LabCorp representative, or drop it in the US mail. (No postage required.) You may also complete the form online at [www.labcorp.com/forms/pediatrics](http://www.labcorp.com/forms/pediatrics).
