

Landscape Architecture/ Recreation Planning

GPI's Landscape Architectural Design Team offers services in Park and Recreation design development for all levels of government agencies, municipalities, and private organizations. The Design Team's approach to Park and Recreational Development is to work collaboratively with the client to provide a creative solution that meets the project's objectives and is cost effective. Our team of Landscape Architects, Engineers and Environmentalists offer the client a multi-disciplinary approach to designing a project from its conceptual stages through construction.

Our goal is the same on every project: Produce a creative, cost-effective design that meets the clients' needs and expectations.

The following is a summary of Professional Services offered by GPI that provides our clients with high-quality and cost-effective solutions:
