

Biomedical Libraries

Make LM Information Delivery your partner for the acquisition and management of content and information management resources and you will gain a trusted advisor, conscientious about both cost and quality and dedicated to best-in-class service overall.

One-stop shopping – Our robust and ever-growing catalog of 700 000+ titles including electronic, digital and print serials, ejournal packages, site licenses, ebooks and other media enables you to order everything you want from one source. Updates to the catalog are continuous, assuring you the most up-to-date and accurate pricing and bibliographic data.

- e-Journals (individual titles and packages)
- Scientific/technical/medical (STM) journals
- Digital subscriptions and media
- Books, ebooks and monographs
- Consumer magazines and newspapers
- Business and trade publications
- Standing orders
- Memberships
- Foreign and domestic titles

As our customer, you are served by the most competent, highly experienced information service professionals in the industry. LM's award-winning cloud-based subscription management system simplifies our customers' lives by streamlining tasks related to content acquisition and management through every stage of a subscription's lifecycle.

information delivery

State of the art, cloud-based account management system – Libnet® 's intuitive user interface offers simple, powerful search and 24/7/365 access to our comprehensive catalog of print and electronic resources. With Libnet, you can carry out all the necessary tasks to easily and efficiently manage the entire life cycle of your electronic and printed journal subscriptions.

Functionalities include:

- Ordering, renewing and claiming
- EDI invoicing and claiming
- Storing and referencing license contracts and details
- Robust, customizable reporting features for collection development and assessment
- Comprehensive usage statistics and insights

Libnet® is also highly customizable – to incorporate your library branding, inclusion of fund, subject and/or budget codes, or seamless integration with your ILS, in-house accounting system or eprocurement solution.

Highly skilled and knowledgeable staff – Our expert staff can assist you with any and all phases of electronic and print resource acquisition, access and management, including license negotiation, registration/activation, cost/value analyses and more.

Publisher relationships – With close, long-standing relationships with thousands of publishers (general media to the most specialized STMs), we are able to provide competitive pricing and continually updated publisher information for our customers. This ensures accurate and timely order processing and claims resolution.

Over 40 years experience – LM Information Delivery's longevity translates to knowledge and expertise. We are able to deliver unrivaled and uncompromising service to our customers in this fast-changing and competitive marketplace.

Plus, best-in-class information management tools – Via select strategic partnerships. Ask us for more details.

LM in Brief: LM Information Delivery is a leading international subscription and information services provider. Our customers include university and research libraries, hospitals and medical libraries, public libraries, governmental and corporate information centers. We provide our customers with Subscription Management Services, e-Resource Access and Management Services, eBook Services, and Database Services. Our services and products improve efficiency and save time in information retrieval, as well as improve the use of e-resources. The cornerstone of our business is professional local customer service together with cutting-edge technology.

Proud members of:

- American Library Association
- Medical Library Association
- Special Libraries Association
