# Comprehensive selection of transducers

## Curved array transducers

### CA2-8AD

- Application: general purpose abdomen
- 68° FOV
- Frequency: 2 - 8MHz

### CF4-9

- Application: small animal abdomen, cardiac
- 92° FOV
- Frequency: 4 - 9MHz

## Linear array transducer

### LA3-16AD

- Application: small parts, 38.4mm FOV
- Frequency: 3 - 16MHz

## Phased array transducer

### PN2-4

- Application: abdomen, cardiac
- 90° FOV
- Frequency: 2 - 4MHz

Why SAMSUNG over the rest.
