

**SAGE COMPASSION FOR ANIMALS**  
A CAUSE FOR PAWS

## Our Mission

We provide financial assistance for veterinary care to help companion animals in crisis and educate communities about ways to prevent and reduce illness.

## Our Vision

We believe animals are amazing and that you love them as members of your family. We envision a world where you have access to the health care and education you need to give them their best lives possible.

To learn **more**, **donate** or **apply** for grants, please visit [SAGEC4A.org](http://SAGEC4A.org).

## Our Values

### Integrity

- Our intentions match our actions
- We follow our moral compass even when no one is watching
- We make decisions based on sound medical knowledge and established criteria
- We know what is important and hold fast to that idea, even when it is not convenient or to our benefit

### Compassion

- We treat animals and their guardians with kindness and understanding
- We are empathetic when we cannot provide financial assistance and support
- We act with care and grace when making difficult decisions
- We recognize and acknowledge that compassion fatigue in veterinary medicine is compounded when guardians have limited financial resources

### Dedication

- We work faithfully to help animals
- We are devoted to preserving the pet/parent bond
- We tirelessly work towards optimal outcomes
- We unite with others to achieve our mission

### Impact

- We strive to make a permanent, long lasting contribution
- We make decisions with a defined purpose
- We believe even small actions can have a big impact
- We make the world better by improving the lives of animals and their guardians
