

Welcome to RFS Commercial, Inc. Family run, family values.

RFS Commercial specializes in concrete repair, restoration, leveling, commercial floor covering, furniture, window treatments and outdoor furnishing sales and installations. We have been a service-oriented, commercial contractor for over 20 years and believe that our clients are not content with their purchase until the product is properly installed. As a second-generation, family-owned-and-operated business, we are respected for being hands-on, accountable, and driven to satisfy our clients' needs. We are a full-service interiors contractor that serve our clients from planning, design and specification, through installation and maintenance. We serve K-12 schools, colleges, universities, healthcare facilities, municipalities, government agencies, law firms, and corporate entities. RFS Commercial is a leader in:

- Concrete Restoration
- Flooring
- Furniture
- Window Treatments

When you work with us, you're like one of the family!

Furniture that not only functions right , but fits your needs and your budget too!

Furnishing a business office, school, or government facility takes special knowledge. What choices will best serve the application? How will you create the look to reflect a distinct personality, and the functionality to serve unique needs? RFS Commercial has the knowledge to help you make those choices. In fact, selling you furniture, comes at the end of the process. First, we bring you information, skill, and partnership. We listen to what you need, then work with you to create it. And if we don't already have it, we can have it designed from scratch. Our long experience ensures that when we say the "best furniture," we mean the best quality as well as providing the best style and function.

Let superior quality, design, and the sunshine in.

Well-designed window fashions do more than simply cover a window. At RFS Commercial we provide the best options in both form and function for your interior window needs. All of our window fashions are designed and custom-assembled in the U.S.A. They are available in a wide variety of product designs with fabrics and materials that come in a range of opacities from sheer to opaque — offering varying degrees of privacy and light control options. Our longstanding commitment to working with quality manufacturers means you'll enjoy choices that you won't find anywhere else. From cordless, manual and motorized operating systems, retractable lift cords, cord tensioners and wand controls, we offer a wide array of innovative lifting system options for enhanced child safety as well as easy operation.

There's no need to replace when you can resurface and restore!

RFS Commercial's services includes a full maintenance program to restore and resurface your concrete floors. Polished concrete is one of the most cost-effective flooring options available today. With no topical sealers to strip and re-apply; along with no waxing or solvent applications, you will see lower maintenance costs and less wear on equipment over your floor's life-cycle. The process requires no dry time, cutting down on costly delays, and limiting work area downtime. Refurbishing an existing floor avoids demolition costs and material removal fees.

Polished concrete gives an unparalleled tactile sensation; a warm feel and texture unlike any other material. It can be refined to be as smooth as polished stone and tinted in a variety of hues. RFS can also polish and restore your existing Terrazzo floor to bring back its original finish and luster.

Don't rebuild it when you can refinish it to look like new!

RFS Commercial's mason team can rebuild and completely restore your exterior concrete surfaces without the need for a complete demolition of your existing structures. Most concrete problems stem from water and ice that get beneath the concrete surface and cause spalling. By removing decayed material and properly treating existing re-bar, RFS Commercial can structurally repair your steps, retaining walls, curbing, sidewalks, and much more. Our process will not only renew the damaged areas, but we will use state of the art materials by Ardex to ensure a finished surface that looks like a brand new structure.

Before

After

Before

After

Whether you are looking for a simple design to refresh your space, or a complete ground up renovation, we are sized right for your needs. RFS Commercial has the capability to transform environments from floor to ceiling, both interior and exterior.
