**Secure &
Backup**

QuickBooks is one of the most commonly used accounting software for small to mid-sized businesses. It saves a ton of time on bookkeeping and paperwork, creates great reports, allows for collecting quick payments and has useful banking tools for easier reconciliation.

As convenient as it may be for controlling the finances in your business, it can be quite challenging to manage a QuickBooks server, its users and other IT tasks like backups, accessibility, and the list goes on... Your small business or accounting firm should be focusing on the data in QuickBooks, not the server. If you're using QuickBooks Enterprise, chances are it plays a crucial role in your businesses success.

Aufsite has a proven, customizable solution that takes the hassle out of managing QuickBooks Enterprise. Our solution helps you get rid of hardware, move QuickBooks Enterprise in to the Cloud and allow your users to access it from anywhere with a complete secure connection. Best of all, you'll never have to run back ups, update operating systems or perform any IT management tasks for it ever AGAIN.

Office 365 is cloud-based productivity, hosted by Microsoft.

With Office 365, you get the latest Office applications – and much more.

At its heart is Office itself—the familiar Office applications businesses use everyday—now offered as a cloud service, so it’s always up to date. But Office 365 is also so much more. It’s about bringing enterprise grade services to organizations of all sizes, from online meetings to sharing documents to business-class email.

 **Always up-to-date.** Never buy a new version of Office again!

 Each user can install Office on up to 5 PCs or Macs.

 **Save to the cloud** for backup and anywhere access.

 Use Office on your **smartphone and tablet.**

 **Business-class email** Gain large, 50GB mailboxes that can send messages up to 25MB in size, with contacts shared calendars, and spam and malware protection that stays up to date. Built with Exchange email technology, the leading email solution for business around the world. Use your own custom domain for your professional email address, connect with Outlook for fully featured offline support, and access email via any modern web browser. Available on your PC or Mac, as well as Windows Phone, iPhone, Android, and Blackberry devices.

 **Online meetings** Hold scheduled or ad hoc online meetings for up to 250 participants, with screen sharing, audio and video, virtual whiteboards, polls, and shared notes. Partners and customers can fully participate through any HTML5 browser.

 **Online document storage and file sharing** Get 1TB of space in the cloud to store, backup and easily share files. Files are accessible from almost any device, also synchronized offline and available without an internet connection.

 **Private social networking and collaboration** Set up a social network that helps your company stay connected, share information across teams, and make faster, more informed decisions.

 **Technical support** Have confidence knowing that your Office 365 subscription comes with 24/7 technical support by a global network of experts, with 1 hour response time for critical, service impacting events.

 **Simplified IT Management** Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed datacenters with continuous backup and disaster recovery abilities

 **Financially backed SLA** Get peace of mind knowing your services are available when you need them with a financially-backed 99.9% uptime service

Office 365 changes how work is done...

Get work done from anywhere Wherever your people are, online or offline, they can get to—and work with—the most up-to-date versions of the files and tools they need to get things done. And they can do it on virtually any device.

Work better together—simply Office 365 offers business-class email, shared calendars, IM, web conferencing, and access to the most up-to-date documents stored in the cloud. You can work together in real time without compromising security.

...and how companies consume IT.

Reduce your capital expenditure Office 365 is available as a simple monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense.

Be always up to date Since Office 365 is in the cloud, it is always up to date. No patches or software upgrades necessary. Microsoft is adding new value and capabilities on a monthly basis.

Cut hardware and energy costs Without servers to run for email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

License per user Simplify licensing while providing each user access to business critical technology on 5 PCs/Macs and 5 mobile devices. Save money when compared to traditional, per device licensing.

Scale your business quickly Office 365 grows with you. Adding a new user is as simple as buying an additional license.

License what you need Office 365 provides many plans to fit the right capability needs and price points for each user in your organization.
