

## Who We Are

- ▶ Specialized software developer focused on the public sector
- ▶ 40+ years in business
- ▶ 415 combined years of software experience
- ▶ 200+ municipalities across the United States use our solutions

Our FastTrackGov® (FTG) community development software allows your municipality to connect with your citizens anytime with robust solutions, including licensing, construction permitting, code enforcement, planning & land use, and more. Modern conveniences, greater efficiencies, and an easy-to-navigate portal all come standard.

**Adaptability in this ever-changing climate is vital. That's where FTG applications excel.**

## FTG Functions & Features

- ▶ Apply, pay, renew, and schedule services online
- ▶ Information accessible in real time from any location in the field using a web-enabled device
- ▶ A centralized database provides real time access to all permits, licenses, and registrations
- ▶ Communication and interaction with multiple departments
- ▶ Respond to OPRA instantly with configurable Adhoc reporting
- ▶ Integrated GIS
- ▶ Supports integration with a background check provider or IVR software
- ▶ Workflow that is tailored to your unique business requirements
- ▶ One solution for the entire municipality with integrated financial software

MH&Co. is shaping government technology and changing how municipalities and their citizens interact and communicate. Now is the time to take your municipality to the next level of versatility and citizen service.

## What our clients are saying:

"I am so glad we have had your CRM software for over 10 years. Everyone is working from home and the FastTrackGov software is keeping our department operating efficiently and serving the residents of Manchester Township in these difficult times. Thanks for your support." -Mike M., Construction/Fire Official, Manchester, NJ

"With the COVID-19 stay at home order in Minnesota, we've been taking permit applications exclusively with FastTrackGov. We'd be completely paralyzed if it weren't for our move to FTG. It works so well." -David R., Director, Land & Resource Management, Douglas County, MN

"Since transitioning to FastTrackGov, our workflow efficiency has improved considerably. We have been able to diversify the work our staff does in the field, in creating public safety and service to our community." -Josh L., Business Systems Analyst Regulatory Division, City of Portland
