

PalmSAT® 2500 Series

Reliable Readings Anywhere

Portable, versatile PalmSAT series handheld pulse oximeters provide spot checks and continuous monitoring of blood oxygen saturation (SpO₂) regardless of patient location.

Performance >

Delivers reliable results at a lower total cost of operation than competing units—up to 80 hours on battery power

Versatility >

Accepts durable Nonin SpO₂ sensors, from reusable soft and clip types to single-patient-use fabric or foam models

Connectivity >

nVision® software provides easy viewing, professional analysis, report generation, and patient data file storage
