

World-Class Content Combined with Engaging and Interactive Features

For 20 years, **Pediatric Education for Prehospital Professionals (PEPP)** has been a trusted resource and an essential course for EMS providers. Developed by the American Academy of Pediatrics (AAP), the **Fourth Edition** of **PEPP** paired physicians and EMS providers together to ensure the content reflects current best practices and the realities of the field.

In addition to the exceptional evidence-based content in the main resource, the course has been redesigned to promote active learning in the classroom through engaging interactivities that enable students to apply their knowledge and skills in a safe environment.

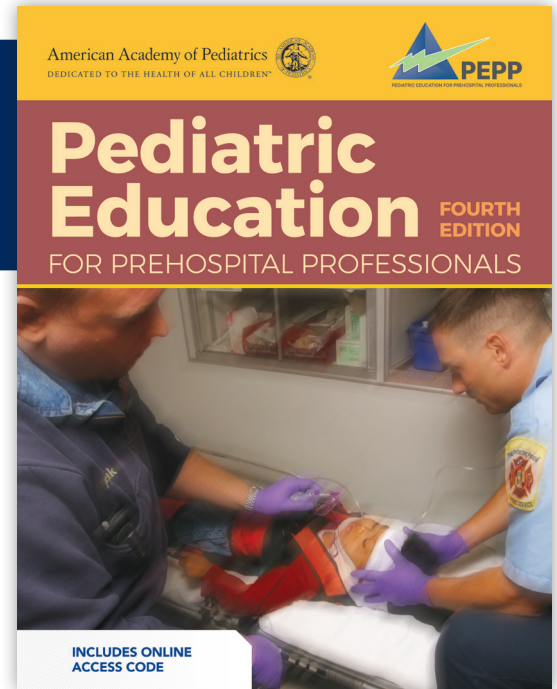

The Fourth Edition Features:

- A new chapter on behavioral emergencies
- A discussion on human trafficking and resources to help vulnerable children
- New procedures on tourniquet application and intranasal medication administration, and more

Four Course Offerings with One Access Code

PEPP Course Coordinators may offer a 2-day onsite course or a 1-day enhanced hybrid course at either the BLS- or ALS-level. The enhanced hybrid course has students complete case-based online modules, engaging interactivities, and rapid skills demonstration videos before attending the onsite portion of the course for hands-on coaching.
