

Regulatory Support for M&A

Our goal is to expedite deal value creation through our Regulatory Affairs focused services

- We pair our domain expertise in Regulatory Affairs with our M&A experience to drive value for our clients
- Our approach ensures that Regulatory considerations are not overlooked throughout the rapid deal lifecycle process, while reducing compliance risk and enabling an efficient stand-up of the post-deal entity
- We provide a wide range of services including pre & post-deal activities (due diligence, RA/QA impact assessments), target operating model assessment, legal entity change impact assessments, and implementation support to accelerate realization of value

Pre-Deal Due Diligence

- Due diligence of product portfolio from a global Regulatory lens
- Impact assessment of legal entity, manufacturing, and global registration changes

Post-Deal Support

- Develop Regulatory strategies for legal entity, manufacturing and global registration changes
- Implementation support to accelerate and stabilize all post-deal activities to disposition the changes

Target Operating Model Design and Implementation

- Rationalization of operating model components in post-deal environments
- Definition of roles, operating structure, and cross-functional interdependencies
