

## EDITORIAL CALENDAR 2021

### Share your knowledge with the regulatory community

*Regulatory Focus* is the flagship online publication of the Regulatory Affairs Professionals Society (RAPS). It is the only source of timely, quality regulatory news, information, and analysis that is fully dedicated to covering regulatory issues associated with healthcare products and the regulatory profession.

Our in-depth and well-sourced Feature articles offer expert analysis and hands-on perspective on a range of regulatory topics. These articles are written and reviewed by regulatory professionals exclusively for RAPS members.

If you are an expert in this field, consider sharing your knowledge and experience with the RAPS community by contributing an article.

For more information about Features content, submissions, and author guidelines, contact Renée Matthews at [rmatthews@raps.org](mailto:rmatthews@raps.org).
