

Protecting Kids from Preventable Vision Impairment and Blindness with:

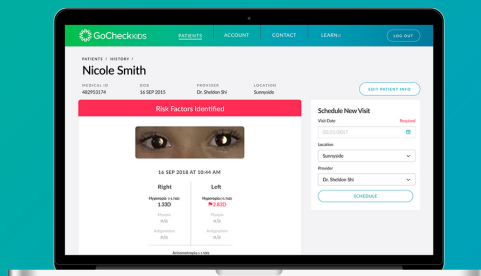

GoCheck Kids was founded by Dr. David Huang, leading ophthalmologist and co-inventor of optical coherence tomography (OCT), the most widely used diagnostic in ophthalmology. GoCheck Kids reduces vision screening cost and increases provider satisfaction by leveraging its cloud connectivity, bidirectional EHR integration, and clinical experts, and the iPhone's manufacturing scale and modern operating system.

It is FDA-registered, HIPAA Compliant, and has been used to screen nearly 2,000,000 children; protecting over 150,000 from learning disabilities, blindness and in some cases, death.

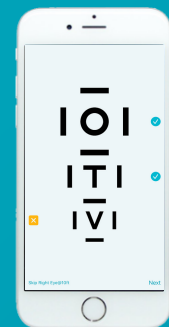

We ship you iPhones.
Our technology and clinical experts take care of the rest.
Your Complete Vision Screening Solution

Photoscreening

Bidirectional EHR Integration
