Our Formulas Are Unique: Made for *Tolerance* so Kids Can *Thrive*

✓ **EASILY DIGESTED ORGANIC PEA PROTEIN**

Organic pea protein with a Protein Digestibility Corrected Amino Acid Score of 1.0 and a complete amino acid profile.

✓ **FUNCTIONAL INGREDIENTS TO SUPPORT GUT HEALTH**

Organic agave inulin in a clinically effective amount to improve GI tolerance.¹
Clinically effective amount of a phytonutrient blend provides antioxidants.^{2,3}

✓ **LOWER OSMOLALITY TO SUPPORT GI TOLERANCE**

305–357 mOsm/kg water

✓ **TASTES GREAT**

Patient-preferred taste.

✓ **MADE WITHOUT COMMON ALLERGENS**

Does not contain milk, soybeans, tree nuts, peanuts, wheat or corn.

✓ **MADE WITHOUT ARTIFICIAL INGREDIENTS**

Does not contain artificial sweeteners, colors, preservatives, carrageenan or maltodextrin.

✓ **CERTIFIED USDA ORGANIC AND NON-GMO⁴**

*(w/nonnutritive sweeteners)

Easy to use, *easily available*

- Sole source or supplemental nutrition.
- Flows smoothly through tubes down to 6.5 Fr.
- Nationally available in hospitals and home care.

Eligible for Insurance Coverage

- Medicare
- Medicaid
- Private plans
- Select WIC⁵ programs

5. WIC is a registered service mark of the U.S. Department of Agriculture for USDA's Special Supplemental Nutrition Program for Women, Infants and Children

The First Plant-Based Formula to Demonstrate Weight Gain and Improved Tolerance in Children¹.

Patients who switched to *Kate Farms*:

86%
of patients had **improved** weight-for-age z-scores.²

90%
of parents reported **better tolerance** on Kate Farms compared to their child's previous formula.³

Additional data supporting safety and efficacy:

In patients with Crohn's disease:⁵

- Weight gain and improved tolerance
- Adherence to formula regimen

In a published case report of a patient status post bone marrow transplant:⁶

- Weight gain and improved tolerance
- No reported interaction with immunosuppressant medications

¹ Cohen, SA., et al. Improved GI tolerance and weight gain in pediatric patients using plant-based enteral formulas. JPEN. 2020; 44(3):274.

² For those patients <21 years old with a documented weight-for-age z-score (n=7), six showed improvement.

³ Tolerance questionnaires were completed for 10 patients: 90% of caregivers agreed that their child tolerated the plant-based formula better than their previous regimen.

⁴ Cohen, SA., et al. Patient-reported outcomes indicate plant-based enteral formula improves nutrition and gastrointestinal symptoms. JPEN. 2020; 44(3):275.
