

The National Institute of Neurological Disorders and Stroke (NINDS) supports research on the brain and nervous system and offers information for the public on many of the most common neurological disorders (see the Disorders section of the NINDS website: www.ninds.nih.gov). Copies of the publications listed on this flyer may be ordered through the Institute's Brain Resources and Information Network (BRAIN).

Mail order to: BRAIN
P.O. Box 5801
Bethesda, Maryland 20824

Call: 800-352-9424

or Fax: 301-402-2186

(Please print clearly.)

Department of Health and Human Services
Bethesda, Maryland 20892-2540

December 2018

Publications *list*

U.S. DEPARTMENT OF HEALTH
AND HUMAN SERVICES
PUBLIC HEALTH SERVICE
NATIONAL INSTITUTES OF HEALTH

Please enter your mailing information and select the number of copies of each publication you wish to receive below.

If you wish to receive more than 10 copies of a particular publication, please call the NINDS Brain Resources and Information Network (BRAIN) at 800-352-9424 or 301-496-5751. Alternatively, you can e-mail us at braininfo@ninds.nih.gov with details about how you plan to use the additional materials.

HOPE THROUGH RESEARCH BROCHURES

(intended for patients and families)

- Brain and Spinal Cord Tumors
- Cerebral Palsy
- The Dementias
- The Epilepsies and Seizures
- Frontotemporal Degeneration
- Headache
- Huntington's Disease
- Lewy Body Dementia
- Multiple Sclerosis
- Muscular Dystrophy
- Pain
- Parkinson's Disease
- Shingles
- Spinal Cord Injury
- Stroke
- Traumatic Brain Injury

FACT SHEETS

(intended for patients and families)

- Amyotrophic Lateral Sclerosis
- Arteriovenous Malformations and Other Vascular Lesions of the Central Nervous System
- Autism Spectrum Disorder
- Batten Disease
- Bell's Palsy
- Carpal Tunnel Syndrome
- Cephalic Disorders
- Cerebral Aneurysms
- Charcot-Marie-Tooth Disease
- Chiari Malformations
- Complex Regional Pain Syndrome (also called Reflex Sympathetic Dystrophy Syndrome)

- Creutzfeldt-Jakob Disease
- Deep Brain Stimulation for Parkinson's Disease
- Dystonias
- Febrile Seizures
- Friedreich's Ataxia
- Guillain-Barré Syndrome
- Hydrocephalus
- Inflammatory Myopathies
- Lipid Storage Diseases
- Low Back Pain
- Machado-Joseph Disease
- Meningitis and Encephalitis
- Mitochondrial Myopathies
- Motor Neuron Diseases
- Mucopolysaccharidoses
- Mucopolysaccharidoses
- Multiple System Atrophy
- Myasthenia Gravis
- Myoclonus
- Narcolepsy
- Neurofibromatosis
- Neurological Complications of AIDS
- Neurological Diagnostic Tests and Procedures
- Peripheral Neuropathy
- Post-Polio Syndrome
- Post-Stroke Rehabilitation
- Progressive Supranuclear Palsy
- Restless Legs Syndrome
- Rett Syndrome
- Spina Bifida
- Spinal Muscular Atrophy
- Syringomyelia
- Tourette Syndrome
- Transverse Myelitis
- Tremor
- Trigeminal Neuralgia
- Tuberous Sclerosis
- Vasculitis Syndromes of the Central and Peripheral Nervous Systems

BRAIN BASICS

- Genes at Work in the Brain
- Know Your Brain (basic fact sheet on the anatomy and function of the human brain)

- The Life and Death of a Neuron
- Preventing Stroke
- Understanding Sleep

MISCELLANEOUS

- The BRAIN Initiative
- Curing Epilepsy: The Promise of Research
- Know Stroke: Know the Signs. Act in Time.
- Neurological Disorders: Voluntary Health Agencies and Other Patient Resources
- Parkinson's Disease: Challenges, Progress, and Promise
- Stroke: Challenges, Progress, and Promise
- Stroke Risk Factors and Warning Signs
- What You Need to Know About Stroke

PUBLICACIONES EN ESPAÑOL
