

INTRODUCING A GENTLE, NON-FOAMING BODY WASH IDEAL FOR ECZEMA-PRONE SKIN

NEW Eucerin® Eczema Relief Cream Body Wash is a clinically proven solution that's formulated to complement your therapeutic approach

KEY INGREDIENTS	EFFECTS
2% Colloidal Oatmeal	Barrier Lipid Helps reduce transepidermal water loss (TEWL)
Ceramide NP	Skin Protectant Provides a protective layer to soothe skin; reduces itch
Gentle Cleansing System	Surfactants Gentle, non-foaming cleansing agents that minimize dryness and irritation

Eucerin® Eczema Relief Cream Body Wash demonstrated a significant decrease in itching after bathing

Study design: Duration of 2 weeks, with tolerability evaluations and self-assessment questionnaires conducted at baseline, Week 1, and Week 2 clinical visits. Patients (N=35) bathed with cleanser once daily.

*Statistically significant improvement from baseline ($p \leq 0.05$)
