# It's time to update your 2020 adult immunization schedule

The Advisory Committee on Immunization Practices (ACIP) released their updated immunization schedules and most current recommendations.

The **2020 Adult Immunization Schedule** reflects changes to:

- Hepatitis A
- Hepatitis B
- Human Papillomavirus
- Influenza
- Measles, Mumps & Rubella
- Meningococcal
- Pneumococcal
- TDAP
- Varicella

## Vaccine information statements (VIS) It's federal law!

All vaccine providers, public or private, are required by the National Childhood Vaccine Injury Act to give the appropriate VIS to the patient (or parent or legal representative) before every dose of specific vaccines.<sup>1</sup>

You must record the following information in your patients' medical records:

- VIS edition date
- Office address, name and title of the person who administered the vaccine
- Date the VIS is provided (a VIS must be provided before a vaccine is administered)
- Date the vaccine is administered
- Vaccine manufacturer and lot number

# Make the *WISE CHOICE*

*Order your flu vaccine and medical supplies from a source you trust.*

The CDC advises that everyone over the age of 6 months, including pregnant women, receive the flu vaccine every year.<sup>2</sup> Flu season management is about preparedness and having the right products on hand. Let McKesson FluWise<sup>®</sup> help you get ready for flu, with our comprehensive, year-round program giving you access to a variety of flu products, savings and support every step of the way.

## **When you order flu vaccines from us, you get:**

- Free next day delivery
- No order minimum
- No limit on shipping locations per order
- Dedicated flu team
- Extended terms
- Monthly FluWise e-newsletters full of important market updates, trends and best practices
- Webinar Wednesday complimentary series
- Seasonal supplies
- Year-round promotional offers

# FluWise<sup>®</sup>

# Don't let vaccine storage cause you problems

## Implement best practices

- Have a detailed standard operating procedure (SOP) for proper vaccine management
- Train your staff to receive, handle and administer vaccines properly
- Use pharmaceutical-grade equipment designed to refrigerate or freeze

*In need of equipment?*
