Patient Education Resources

Trusted Information From the American Academy of Pediatrics

From our work on infectious diseases to advocating for child health issues and from safety guidance to tips for teens, the members of the AAP are so much more than “baby doctors.” But, at the end of the day, we do really, really love little ones! For decades, parents have trusted our books and brochures to help them through those overwhelming first few days, weeks, and months with their new babies. We're so pleased to be able to share updated editions of 2 of our most popular books for moms and dads, along with other new products.

- **Your Baby's First Year, 5th Edition** (page 3), is an essential reference, chock-full of the latest AAP policies and advice covering every aspect of that first critical year. Bulk discounts of up to 50% make this one of our most affordable options to share with families.
- **Heading Home With Your Newborn: From Birth to Reality, 4th Edition** (page 3), offers reassuring, relatable advice from 2 pediatrician-moms. Their calm and comprehensive advice will help expecting and brand-new parents care for their baby with confidence.
- For families expecting a new addition, human or furry, the new brochure **Pets, Babies, and Young Children** (page 19) offers helpful tips and important guidance on safety considerations.
- Other new resources include **Quirky Kids: Understanding and Supporting Your Child With Developmental Differences** (page 4), **Protecting Your Child's Health: Expert Answers to Urgent Environmental Questions** (page 4), and a new booklet, **Understanding Depression in Children and Adolescents** (page 13).

Thank you for your dedication to the health of all children and for supporting the mission of the American Academy of Pediatrics. Find the latest COVID-19 updates and guidance at aap.org/covid-19.

Get OUR KidsDoc Symptom Checker on YOUR website.

Includes COVID-19 resources!

Our popular KidsDoc Symptom Checker is available to license via an iFrame on your website! The tool's content is regularly updated so there's no work for you. And the tool is now mobile optimized, is available in Spanish (at no additional cost), and can be customized to match the look and feel of your website.

Heading Home With Your Newborn

From Birth to Reality, 4th Edition

Laura A. Jana, MD, FAAP, and Jennifer Shu, MD, FAAP

Send parents home from the hospital with confidence when you provide this invaluable guide.

This best-selling guide on newborns is now fully revised and updated with the essential information new parents need. Written by pediatricians who are also parents, *Heading Home With Your Newborn* covers everything from feeding and dressing to diapering and bathing and from crying and sleep to travel and activities. It also includes information on

- Breastfeeding tips and techniques
- Pumping and accessing insurance benefits
- Formula options, vitamins, and supplements
- Safe sleep and sleep strategies
- Normal development and concerns to discuss with the pediatrician
- Illnesses and injuries
- Vaccines and well-baby visits
- The impact of social media sharing
- Baby blues and postpartum depression, including symptoms and getting help
- And much more

Quirky Kids

Understanding and Supporting Your Child With Developmental Differences, 2nd Edition

Perri Klass, MD, FAAP, and Eileen Costello, MD, FAAP

This classic, coauthored by *New York Times* columnist and pediatrician Dr Klass, has been fully revised and updated to reflect the recent significant changes in the recognition and care of children whose development doesn't go as expected. It includes new information about therapeutic interventions, managing comorbidities, and getting support for children with developmental differences at school. Additional information included covers community resources and initiatives at hospitals and clinics that make life easier for children with developmental differences and their families. The authors also offer a stronger focus on self-care for parents in this new edition, with the pediatrician's perspective of supporting families as they go through the diagnostic process over time. The latest studies show that 1 in 6 children have a developmental disability of some kind—this guide is for the adults who love them and want to help them make their way in the world.

Protecting Your Child's Health

Expert Answers to Urgent Environmental Questions

American Academy of Pediatrics

Editor in chief: Ruth A. Etzel, MD, PhD, FAAP

Associate editor: Sophie J. Balk, MD, FAAP

Parents concerned about the effects of environmental hazards on their children's health will appreciate this accessible Q&A guide. It provides essential information to help them protect their children from toxins where they live, learn, and play, including information on food and water safety, air pollution, sun protection, lead, radiation, and pesticides. Broader issues such as climate change are addressed in addition to the day-to-day risks that children may be exposed to.

Raising an Organized Child

5 Steps to Boost Independence, Ease Frustration, and Promote Confidence

Damon Korb, MD, FAAP

Frustrated parents who are tired of chaos will find concrete, actionable guidance for raising an independent, self-assured, and organized child. Dr Korb defines the neurodevelopmental abilities that are critical for organization and shows parents how to develop their children's organized thinking skills. He provides practical solutions to help children develop their organizational abilities and executive function. *Raising an Organized Child* also offers an overview of brain development as it relates to organization from infancy through the teen years and provides appropriate age-based milestones for organizational skills. Dr Korb's advice covers neurotypical children, as well as those with ASD, ADHD, or other conditions, to help all parents bring more order to their children and their lives.

Building Resilience in Children and Teens

Giving Kids Roots and Wings, 4th Edition

Kenneth R. Ginsburg, MD, MEd, FAAP,
with Martha M. Jablow

Parents, teachers, and others will learn how to boost confidence and foster lifelong grit in children. This fully revised and updated edition includes new information about how strength-based relationships are critical to healthy development, especially for children who have had adverse childhood events or experiences (ACEs). Dr Ginsburg outlines his 7 Crucial Cs—competence, confidence, connection, character, contribution, coping, and control—and teaches moms and dads how to incorporate these concepts into their parenting. *Building Resilience in Children and Teens* also presents strategies to help children and teenagers thrive in coping with the stresses of academic pressure, high achievement standards, media messages, peer pressure, or family tension.

The New Baby Blueprint

Caring for You and Your Little One

Whitney Casares, MD, MPH, FAAP

New mothers will find a modern, empathetic guide to the first few days, weeks, and months with a new baby. Pediatrician and mother of 2 young daughters, Dr Casares combines important health and safety information with honest insights from her own parenting experiences. A dual approach to baby and self-care supports new moms through the challenges of meeting their own needs while caring for a new baby. Dr Casares' message is especially relatable for fellow working moms, struggling to win at parenting without losing themselves.

Raising Twins

Parenting Multiples From Pregnancy Through the School Years, 3rd Edition

Shelly Vaziri Flais, MD, FAAP

“Her empowering and confident tone is neighborly and down-to-earth, keeping parents attuned to her if-I-can-do-it-so-can-you attitude.”

—Publishers Weekly

Pediatrician and twin-mom, Dr Flais, offers expert advice for raising healthy, well-adjusted twins, triplets, and more in this fully revised and updated third edition. Her guidance will help parents of multiples prepare for their babies' arrival, weather the first few months of infancy, manage toddlerhood, and help establish individual identities through the school-age and teenage years. The combination of sound medical advice and real-world experience

will give twin-parents the direction and reassurance that they need. This new edition also includes interviews with twins, including astronaut Captain Scott Kelly.

Family Fit Plan

A 30-Day Wellness Transformation

Natalie Digate Muth, MD, MPH, RDN, FAAP

This pediatrician-designed plan will help families kick-start their health and wellness and set the stage for long-term, lasting improvements in nutrition, fitness, sleep, stress, and screen use habits. Dr Muth walks families through a 30-day transformation that establishes a baseline and goals, creates routines and healthy habits, and provides strategies for overcoming frustration and recognizing obstacles. At the end of 30 days, parents and children will have laid the groundwork to continue a lifetime of healthy habits.

Managing Behavioral Issues in Child Care and Schools

A Quick Reference Guide

Editors: Mary Margaret Gleason, MD, FAAP, and Allison Boothe Trigg, PhD

This new guide provides child care directors, teachers, and caregivers with essential information on managing emotional and behavioral issues in group care settings. The topics covered include social-emotional development, biting, post-traumatic stress disorder, gender development, and more. In addition to common behavioral issues, the topics of epigenetics, medications, toxic stress, and adverse childhood experiences are discussed. This practical tool also includes 25 quick reference sheets on the most common issues, ready-to-use forms, and case studies of difficult situations.

Managing Infectious Diseases in Child Care and Schools

A Quick Reference Guide, 5th Edition

Editors: Susan S. Aronson, MD, FAAP, and Timothy R. Shope, MD, MPH, FAAP

This award-winning guide provides child care directors, teachers, and caregivers with essential information on the prevention and management of infectious diseases in group care settings. The newly revised and updated fifth edition is aligned with the most recent version of *Red Book*®.

The more than 55 quick reference fact sheets on common infectious diseases and symptoms now include a sheet on croup. In addition, the forms have been updated to align with *Caring for Our Children: National Health and Safety Performance Standards; Guidelines for Early Care and Education Programs*, 4th Edition, and there is a new form, Infections Caused by Interactions of Humans With Pets and Wild Animals.

Addressing Mental Health Concerns in Pediatrics

A Practical Resource Toolkit for Clinicians, 2nd Edition

This toolkit is designed to empower pediatric care providers to ready their practice for delivering comprehensive mental health care. The second edition delivers a streamlined collection of essential tools most relevant to pediatric practice, all available in a new online format.

This toolkit aligns with the all-new AAP *Mental Health Competencies for Pediatric Practice*, outlining a process for care and billing. Succinct clinical tools provide step-by-step decision support for the assessment and care of children, covering the most common mental health topics, including

- Anxiety and trauma-related distress
- Depression, including maternal depression
- Medically unexplained symptoms
- Disruptive behavior and aggression
- Gender expression and identity
