

MCKESSON

New Construction | Expansion | Remodeling

Simplify your setup process

Setup without the setbacks

Setups can require a lot of coordination and planning. Whether it's new construction, remodeling or updating your office with new equipment, you need a supplier that has the experience and expertise to help it all come together.

We get it, and we're here to help make things easier. Our streamlined setup process is designed to help meet your timelines while minimizing disruption in your facility, so you can stay focused on what matters most. Nobody wants to inconvenience patients or add stress to staff, and with McKesson, you won't have to.

Our streamlined setup process includes the following services:

- A product consultation with one of our knowledgeable reps
- Product storage for up to 30 days at our distribution center
- Help with ordering, scheduling deliveries, assembling products and placing them exactly where you want
- An assigned McKesson Setup Coordinator to help you keep things organized every step of the way
- Removal of the products you're replacing and taking care of any trash from the new ones being delivered
- Convenient deliveries Monday through Friday; 7 a.m. to 4 p.m. local time
- Free deliveries within 100 miles
