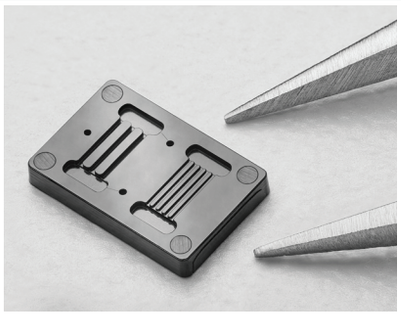
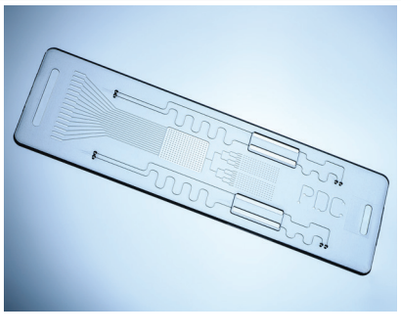
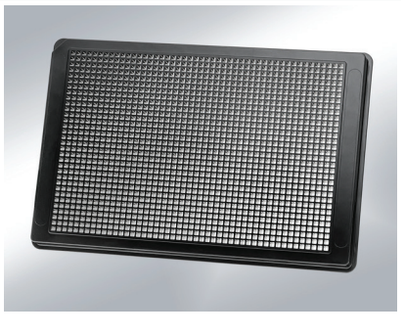
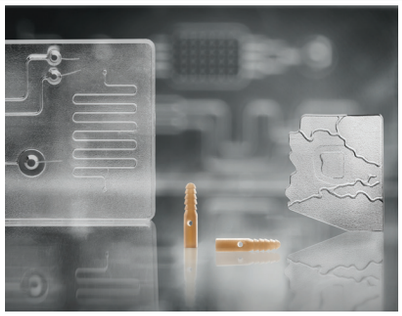
Advancing medical innovation through **micro molding** and **precision microfluidics**

Founded in 1991, PDC is a specialty manufacturing company focused on precision injection molding and value-added assembly in support of medical device and life science customers. Our expertise includes the production of complex materials within an ISO 13485:2016 quality system.









Technologies & Capabilities

IN-HOUSE MOLD PRODUCTION
- CNC, EDM, Grinding

INJECTION MOLDING
- Micro Parts & Microstructures
- COC + COP + PEBA + PEEK

OVERMOLDING
- Film, Flexible + Rigid

INSERT MOLDING
- Standard & Precious Metals

Prototype to Volume Manufacturing

- Complex Material Experts
- In-house Tooling Design & Fabrication
- State-of-the-art Automated Equipment
- Exclusively Cleanroom Production
- ISO 13485:2016

Markets We Serve

MASTERING MICRO MOLDING
Managing Every Micron

MEDICAL DEVICE

INNOVATIVE MICROFLUIDICS
Solutions for the Modern Lab

LIFE SCIENCES
