*Comparable to Wave One Gold®

ROTARY FILE SYSTEM

Designed to safely and effectively shape canals in a reciprocating motion. The M-One Gold™ is the new endo standard in performance using the same reciprocating motion as the Wave-One Gold®.

*Comparable to ProTaper Gold®

ROTARY FILE SYSTEM

Compared to regular NiTi files the M-Taper Gold™ provides twice the resistance against breakage, caused by cyclical fatigue. Made of proprietary treated USA Nickel titanium alloy, the M-Taper Gold™ offers increased flexibility for canal tracking.

*Comparable to ProTaper®

ROTARY FILE SYSTEM

Compared to regular NiTi files the M-Taper™ provides twice the resistance against breakage, caused by cyclical fatigue. Using the same familiar sequence, and protocol as the Protaper®, the M-Taper™ provides a new endo standard in rotary files.
