

THE COMPLIANCE ENGINE

The Compliance Engine is a simple, internet-based tool for code officials to track and drive code compliance, reduce false alarm activity and provide a safer community. It provides a secure cloud environment in which third party contractors who inspect, test and maintain fire protections systems, submit their reports via Brycer's (The Compliance Engine) web portal directly to the AHJ. This facilitates a more efficient review, tracking and follow-up process with occupants to correct deficiencies and maintain systems. In addition to the web-based technology, our services include a team to administer hard and soft copy notifications, build your database and perform follow up calls to help increase testing and maintenance activity in each jurisdiction. The end result is a comprehensive and accurate aggregation of data around which buildings have what types of systems, when they were last tested, and if there are any open deficiencies that could jeopardize their successful deployment in the event of an incident. With The Compliance Engine, AHJs are better equipped to do more with less in their mission to drive 100% code compliance with fire and life safety laws.

Current Landscape

- 40% of life safety systems go uninspected or maintained every year
- 32.5% of false alarms are due to lack of maintenance and testing
- 29% of fire code official-s time is spent administering 3rd Party ITM reports
- 95% of AHJs do not have the resources to enforce their adopted fire code
- Current process is manual, paper based, reactionary, inefficient and expensive

The Compliance Engine Benefits

- Drives 100% compliance with fire & life safety code
- Electronically collects, organizes and tracks fire and life safety test results
- Offers API Services with RMS and software inspection companies
- Maximizes limited resources, saves time and streamlines communication
- Built to ensure a safer environment for firefighters, citizens and guests
- Saves AHJs money while strengthening life safety and offers cost recovery

Revenue Model

- Free for AHJs
- No charge to the building owners
- Fee paid by 3rd party contractors on per system, per premises basis (ITM's).
- Delivers compliance resulting in new business and maintenance revenue for 3rd party contractors
- Endorsed by IKECA and the Western Fire Chiefs Association
