What are Diosmin and Hesperidin?

Diosmin and Hesperidin are bioflavonoids which naturally exist in citrus fruit. Numerous scientific research studies have been conducted that suggest that these compounds have positive effects on the signs and symptoms of chronic venous insufficiency (CVI) especially when supplied as the micronized purified flavonoid fraction (MPFF)¹.

Why Vein Formula?

Vein Formula 1000 has been created by a Board Certified cardiovascular surgeon and vein specialist. Patients can now affordably receive the micronized purified flavonoid fraction (MPFF) of Diosmin and Hesperidin that vascular experts recommend. MPFF is recognized by many opinion leaders as a vital component in the fight against CVI and venous stasis ulceration.
