A cutting-edge LMS platform that reimagines e-learning

A next-level LMS that unifies a robust learning management system with an innovative learning experience platform (LXP) to provide the most comprehensive learning solution.

LXP

A unique learning experience

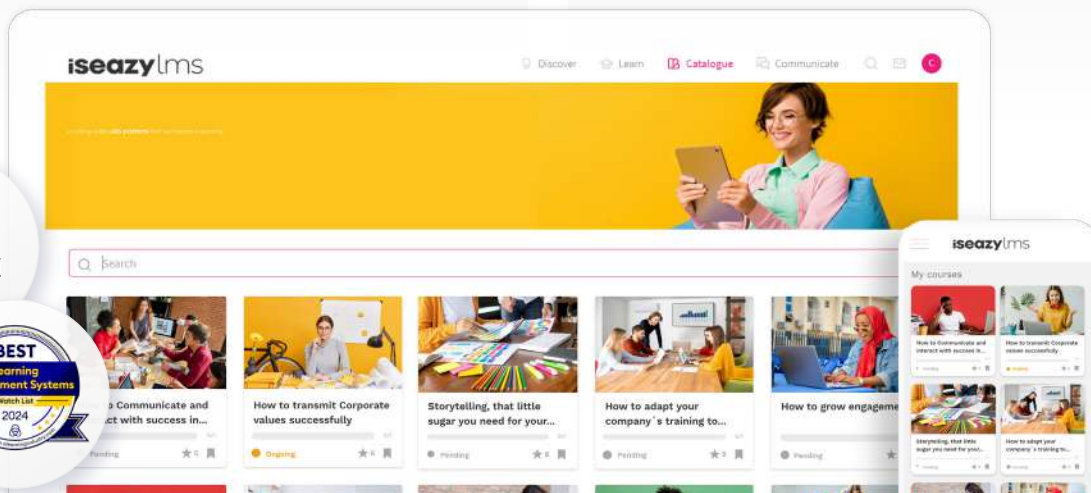

Ditch traditional training models and captivate your trainees with a platform that prioritizes user experience.

LMS

Everything you need to optimize your training project

Access all the functionalities of a powerful LMS to manage your training processes, simplify tasks and reduce management time!

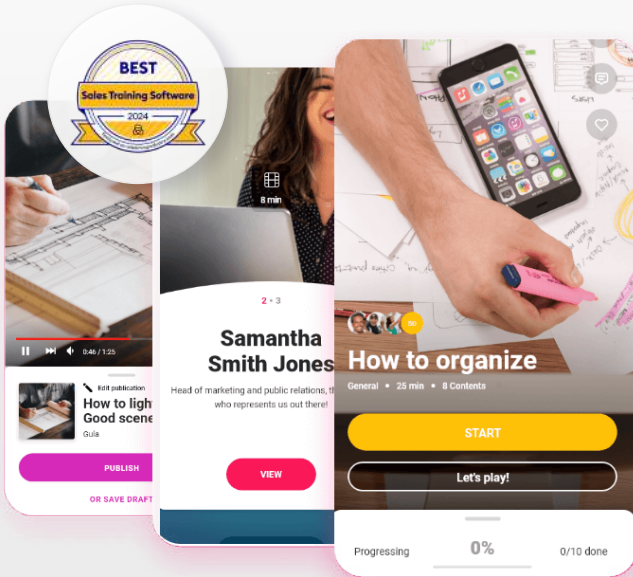

Why choose when you can have it all?

- **All-inclusive management**
Manage your team's complete training cycle.
- **Automations**
Automatic notifications, communications, certificates... Simplify processes and optimize your training.
- **Business intelligence**
Evaluate and optimize each phase of the training project and measure its impact.
- **Learning environment**
A new way to deploy your training, communication, and corporate knowledge.
- **User experience**
Gamification activities, bookmarks, favorites, and wish lists that will engage your users.
- **Artificial intelligence**
Facilitates access to information thanks to our advanced search engine.

The **onboarding & training app** for frontline workers

Increase your frontliners engagement and productivity with a mobile-first solution specially created for them.

- **ONBOARDING.** Accompany your frontliners right from the start with everything they need in a single app.
- **LEARNING.** Facilitate continuous training with microlearning, gamification, and diverse learning activities.
- **KNOWLEDGE.** Manuals, video tutorials, catalogs... all the knowledge in the palm of their hands.
- **COMMUNICATION.** Keep your workforce aligned and engaged, wherever they are.
- **TASKS.** Task-based solution to improve productivity, right from their smartphone.

Drive your company's success through play with our **gamification app**

Our powerful platform utilizes cutting-edge gamification to detect, fix, and prevent knowledge gaps within organizations.

High-level of gamified training

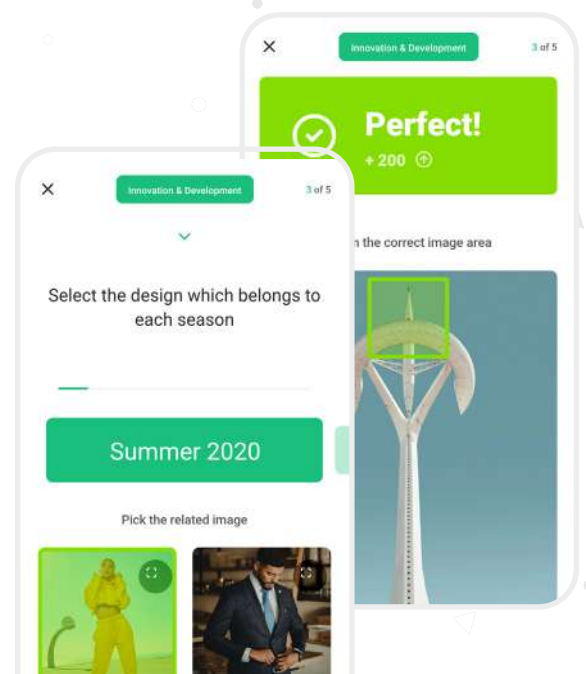

Games, rankings, individual or peer challenges... Create simple but effective dynamics that will improve learning outcomes.

Customized for you

Select your preferred quiz format, add multimedia elements such as audio or video, and fully personalize your training with our flexible app.

Advanced analytics

What do your employees know about your desired knowledge area or topic? Make the best decisions and elevate training results.
